Re: Incident Notification

Dear Attorney General Foster:

Our client, 1-800-Flowers.com, understands the importance of protecting the personal information provided by its customers. On February 15, 2016, 1-800-Flowers.com received reports from several customers that the customers were unable to complete their online order. The 1-800-Flowers.com operations team initiated an investigation and identified signs of unauthorized access to the network that operates its e-commerce platform.

The investigation showed that orders placed on the 1-800-Flowers website during a 33-hour period from the evening on February 15th into the early morning hours of February 17th, 2016 may have been affected. During this limited time period, if a visitor attempted to, or did place an order, information associated with the order being placed, including name, address, email address, payment card number, expiration date and security code (CVV) may have been obtained by an unauthorized third-party.

1-800-Flowers.com will be providing written notification today to 37 New Hampshire residents in accordance with N.H. Rev. Stat. Ann. §359-C:20 in substantially the same form as the document enclosed herewith. Notice is being provided as quickly as possible. In addition, 1-800-Flowers.com has provided a dedicated call center that potentially affected individuals can call with questions regarding the incident.

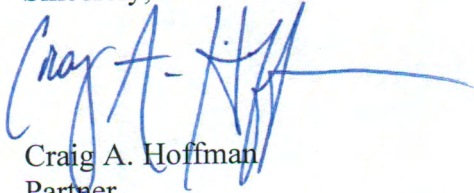

1-800-Flowers.com is continuing to work closely with leading security experts to identify and implement measures to further strengthen the security of its system to help prevent this from happening in the future.

1-800-Flowers.com values the relationship we have with our customers and understands the importance of protecting personal information. We are writing to inform you about an incident that may involve some of your information.

Our customer service team received reports on February 15, 2016 from several customers that they were unable to complete their online order. Our operations team initiated an investigation and identified signs of unauthorized access to the network that operates our e-commerce platform.

The investigation shows that orders placed on our website during a 33-hour period from the evening of February 15th into the early morning hours of February 17th, 2016 may have been affected. During this limited time period, if a visitor attempted to or did place an order, information associated with the order being placed, including name, address, email address, payment card number, expiration date and security code (CVV) may have been obtained by an unauthorized third-party.

Although we cannot confirm that any specific order information was affected, we are notifying you because you placed or attempted to place an order during this time period. The access permitting the potential exposure to the above information has been resolved.

We are continuing to work closely with leading security experts to identify and implement measures to further strengthen the security of our system to help prevent this from happening in the future. We encourage you to remain vigilant and review your payment card account statements closely. You should report any unauthorized charges to your card issuer immediately because card network rules generally provide that cardholders are not responsible for unauthorized charges that are reported in a timely manner.

We apologize for any inconvenience or concern this may have caused. If you have questions, please call 888-687-9294 from 9 a.m. to 7 p.m. EST.

Sincerely,

Bibi Brown
Vice President, Customer Experience
