Notice of Data Breach

Dear Attorney General Formella:

I am writing on behalf of Best Friends Pet Care, Inc. ("Best Friends" or the "Company"), with a headquarters located at 535 Connecticut Ave, Suite 305, Norwalk, CT 06854, to provide a report of a recent data breach. Best Friends provides pet care facilities, boarding, grooming, daycare, training, veterinary care, and pet products.

On April 19, 2023, Best Friends' information technology team discovered that a Company email account had been compromised and accessed by an unauthorized individual beginning on April 17, 2023. While Best Friends has implemented multifactor authentication ("MFA") on all of its email accounts, unbeknownst to Best Friends, the MFA for this particular email account had been disabled. Best Friends immediately engaged a professional forensic investigator to assess the incident. On June 9, 2023, the forensic investigator provided preliminary data regarding the information involved in the incident. So far, there is no evidence that any personal information was exfiltrated or otherwise removed from Best Friends' servers, but it does appear that the unauthorized individual had access to it. Best Friends has no indications that any of the data has been used for fraudulent purposes, nor are we aware of any resulting identity theft, fraud, or financial losses. Nevertheless, out of an abundance of caution, the Company is notifying the individuals whose information was located in the impacted accounts that their personal information may have been exposed.

While Best Friends learned of the breach on April 19, 2023, the nature of the data that appeared to be involved was such that addresses for the impacted individuals were not all immediately present. As such, Best Friends and its vendor have been working, and continue to work, together to identify the contact information for the impacted individuals so that Best Friends can notify the individuals of the incident. The first batch of this information was

completed on July 6, 2023. This batch of data revealed that four (4) New Hampshire residents had information involved in the breach. If the data still being analyzed reveals additional New Hampshire residents, we will provide a supplemental notice to your office.

The personal information that may have been accessed in Best Friend's systems includes certain New Hampshire residents'

Notices are being sent to the impacted individuals four individuals noted above tomorrow, July 14, 2023.

Best Friends contained the incident and immediately commenced an investigation. Best Friends also enhanced its MFA protections, implemented a new spam detection platform, moved from an individual IT manager to a fully-outsourced, professional, end-to-end technology service company, and undertook a full forensics investigation of the incident. In addition, Best Friends is offering each impacted New Hampshire resident a complimentary membership in Kroll's Credit Monitoring, Fraud Consultation, and Identity Theft Restoration services.

A copy of the template form of the notification letter that is being sent to the affected New Hampshire residents on July 14, 2023 is included with this notice as Exhibit A. As you will see, among other things, the letter (i) describes various steps that affected individuals can take to protect themselves, (ii) provides contact information for consumer reporting agencies and relevant governmental agencies, and (iii) provides information about enrolling in 12 months of credit monitoring services, which the Company is offering to the affected individual at no cost. An appendix is also attached with the letter as Exhibit B, which will serve as a key for your reference to the "text" field in the letter, which is a variable depending on the particular personal information involved.

If you have questions about this incident, please feel free to contact me at the email or phone numbers listed above.

Sincerely,

Janet P. Peyton
