The Honorable Joseph Foster Attorney General of New Hampshire New Hampshire Department of Justice 33 Capitol Street Concord, NH 03301

Dear Attorney General Foster:

Pursuant to N.H. Rev. Stat. § 351-C:19 et seq., we are writing to notify you of a breach of security involving 4 New Hampshire residents.

Nature of the Security Breach or Unauthorized Use or Access

The Boston Teachers Union Health and Welfare Fund ("the Fund") is a public employee health care fund established under state law to provide vision and dental care benefits to eligible teachers and paraprofessionals represented by the Boston Teachers Union. The Fund hired Classic Administrative Services ("Classic") to administer the database of member information used to determine eligibility for vision benefits. In order to allow Classic to administer this database, the Fund provided Classic with the personal information of its members. On April 4, 2013, a Fund member discovered that his name and social security number appeared in web search results for cladse.com, a website maintained by Classic Optical, the parent company of Classic Administrative Services.

Upon learning of this information, Classic Optical immediately engaged an internet security firm that specializes in mitigating security breaches. The security firm was able to quickly determine the root cause of the disclosure and fix the underlying software issue which inadvertently exposed the social security numbers of some members. A more detailed technical description of the incident is contained within the enclosed Incident Response Report prepared by Protectus, LLC for Classic Optical.

Number of New Hampshire Residents Affected

This breach affected 506 individuals, of whom 4 are New Hampshire residents. These New Hampshire residents will shortly receive notice via first-class mail. A copy of the notice that we expect will be issued to the affected New Hampshire residents is enclosed.

Steps the Fund Plans to Take Relating to the Incident

Within one day of learning that social security numbers had been inadvertently exposed on the internet, Classic Optical fixed the coding loophole which had allowed such exposure. By fixing this loophole, Classic Optical ensured that such a breach would not recur in future. The Fund is also taking steps to prevent this type of event from happening again, including ensuring that personal information of members is only transmitted to vendors in an encrypted format. The Fund is also transitioning away from the use of social security numbers for the determination of eligibility for vision benefits and is targeting September 1, 2013 as the date for completion of the transition. The Fund is also preparing a draft written information security plan and will be implementing the plan as soon as possible.

Because the security breach was inadvertent, law enforcement has not been contacted. The Fund has no evidence that the personal information has been used for fraudulent purposes, but will be offering credit monitoring services to those whose social security numbers have been exposed.

Other Notification and Contact Information

Please feel free to contact Matthew E. Dwyer, Dwyer, Duddy and Esposito, 25 Burlington Mall Road, Suite 411, Burlington, MA 01803 (781-359-9777) if you have any questions or need further information.

Very truly yours,

Hugerk McGlynn Fund Administrator

Dear [First_Name] [Last_Name],

We recently learned of a security incident that may have resulted in the disclosure of your personal information. At this time, we are not aware of any misuse of your personal information. We take the security of your information very seriously, and sincerely apologize for any inconvenience this may cause you.

The Boston Teachers Union Health and Welfare Fund ("the Fund") hired Classic Administrative Services ("Classic") to administer the database of member information used to determine eligibility for vision benefits. In order to allow Classic to administer this database, the Fund provided Classic with the personal information of its members. On April 4, 2013, a Fund member discovered that his spouse and dependant's name combined with his social security number appeared in web search results for classe.com, a website hosted by Classic Optical, a subcontractor of Classic Administrative Services.

Upon learning of this information, Classic Optical immediately engaged an internet security firm that specializes in mitigating security breaches. The security firm was able to quickly determine the root cause of the disclosure and fix the underlying software issue which inadvertently exposed the social security numbers of some members.

We want to assure you that the Fund is taking steps to prevent this type of event from happening again, including ensuring that personal information of members is only transmitted to vendors in an encrypted format. The Fund is also transitioning away from the use of social security numbers for the determination of eligibility for vision benefits and will be implementing a written information security plan. Classic Optical has fixed the coding issue which originally led to the inadvertent disclosure.
