Re: Incident Notification

Dear Attorney General Foster:

Our client, Delta Career Education Corporation (Delta), is committed to maintaining the privacy and security of the personal information it maintains on behalf of its employees and former employees. On September 29, 2016, Delta learned that its employees were the subject of a targeted phishing e-mail attack and, as a result, 2015 W-2 Tax and Wage Statement forms were potentially obtained by unauthorized individuals. Upon learning this, Delta immediately began an investigation to determine the scope of the incident and the information affected.

According to the investigation, Delta believes that an unauthorized individual or individuals potentially obtained copies of all Forms W-2 that Delta sent to employees for calendar year 2015, which contain names, addresses, Social Security numbers, and income information.

As part of its efforts to address this issue, Delta notified the IRS, state taxing authorities, local police, and federal law enforcement of this incident, and Delta is cooperating with their ongoing investigations.

Delta provided written notification via U.S. Mail on October 13, 2016, to 1 New Hampshire resident in accordance with N.H. Rev. Stat. Ann. § 359-C:20 in substantially the same form as the document enclosed herewith.¹ Notice is being provided in the most expedient time possible and without unreasonable delay. This notification letter includes an offer to enroll

¹ As Delta does not conduct business in New Hampshire, this letter is not, and does not constitute, a waiver of personal jurisdiction.

in one year of free credit monitoring and identity protection services. Delta has also established a dedicated call center to answer any questions that individuals may have regarding the incident.

To help prevent something like this from happening again, Delta is reinforcing its information security training program with an emphasis on the detection and avoidance of phishing email scams and identifying opportunities to increase security within its information technology systems.

Please do not hesitate to contact me if you have any questions regarding this matter.

Sincerely,

Theodore J. Kobus III
