Re: Notification of Potential Data Compromise

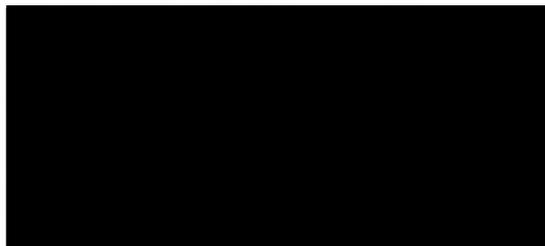

Dear Office of the Attorney General:

I am sending this letter on behalf of my client, Fast Forward Academy, LLC, a Florida-based company. We are writing in accordance with your state's personal information notification statute to inform you that we are notifying 45 of your residents that their personal information may have been viewed without authorization. We anticipate sending the notification to the residents during the week of January 5, 2015. We have attached a copy of the consumer notification text for your reference. We will also be notifying the three credit reporting agencies.

We are offering one year of consumer support services, including credit monitoring if the consumer would like it, and other resources to assist residents with the uncertainty that can result from a notification such as this. Among other offerings included in the attached text, we have provided a help line that the consumers can call if they have any additional questions. We have not taken this potentially unauthorized viewing of information lightly and hope the notification will reduce your residents' concerns.

If you have any questions regarding this matter, please contact me at 

Sincerely,

Enclosure
