**Re: Notice of Data Breach**

Dear Attorney General Formella:

Our office represents Fonville Morisey and we are writing to provide you with notice of an incident that may affect the personal information of three (3) New Hampshire residents. By providing this notice, Fonville Morisey does not waive any rights or defenses regarding the applicability of New Hampshire law or personal jurisdiction. Fonville Morisey's investigation is ongoing, and this notice will be supplemented with any material facts learned subsequent to its submission.

**Background**

On October 26, 2021, Fonville Morisey became victim to a ransomware attack. Once the attack was discovered, Fonville Morisey engaged cybersecurity experts and launched an investigation into the nature and scope of the attack. As part of the investigation, it was determined that the responsible cybercriminal had access to Fonville Morisey's systems between October 22, 2021 and October 28, 2021 to perpetuate the attack. As a result of the attack, the cybercriminal encrypted Fonville Morisey systems that store information on current and former employees, agents, vendors, and those individuals that previously enrolled in training with Fonville Morisey. Although there is no confirmation that personal information was accessed or acquired as a result of the attack, personal information did reside on the encrypted systems. This personal information included name and Social Security number.

## Re: Notice of Data Breach

Dear Sample A. Sample:

Fonville Morisey is writing to notify you of a recent incident that may impact your personal information. This letter provides information about the incident, our response, and resources available to you to help protect your personal information, should you feel it necessary to do so.

**What Happened?** On October 26, 2021, we determined that Fonville Morisey was the victim of a ransomware attack. Once we became aware of the attack, we engaged cybersecurity experts and launched an investigation into the nature and scope of the attack. As part of the investigation, we determined the cybercriminal(s) responsible for the attack had access to Fonville Morisey's systems from October 22, 2021 to October 28, 2021 to perpetuate the attack.

**What Information Was Involved?** Ransomware is used by cybercriminal(s) to encrypt files, therefore, rendering any files and systems that rely on them unusable. As part of our ongoing investigation, we determined the cybercriminal encrypted our systems that store information on [Extra1] of Fonville Morisey. Although we have no indication that your personal information was accessed or acquired as a result of the attack, your personal information did reside on the encrypted system. This personal information includes your name, [Extra2]. As a precautionary measure, we are providing you with this notice.

**What Are We Doing?** We take this incident and the security of your information seriously. In addition to the steps detailed above, as part of our ongoing commitment to information security, we are reviewing our policies and procedures, implemented Multi-Factor Authentication (MFA) on all accounts, and have engaged leading cybersecurity experts to implement additional safeguards and security protections to better protect against similar incidents in the future. We are also offering you two (2) years of complimentary credit monitoring and identity restoration services with Experian. In addition to notifying you, we also notified certain state regulators and consumer reporting agencies of this incident as required.

**What You Can Do.** You can review the enclosed *Steps You Can Take To Protect Your Information*, which contains instructions on how to enroll in the complimentary credit monitoring and identity restoration services. It also includes additional information on what you can do to better protect against the possibility of identity theft and fraud, if you feel it is appropriate to do so. Please note that while Fonville Morisey will cover the cost of Experian's services, you must complete the enrollment process.

**Place a security freeze:** You may place a security freeze on your credit reports, free of charge. A security freeze prohibits a credit reporting agency from releasing any information from a consumer's credit report without written authorization. However, please be aware that placing a security freeze on your credit report may delay, interfere with, or prevent the timely approval of any requests you make for new loans, credit mortgages, employment, housing, or other services. You will need to place a security freeze separately with each of the three major credit bureaus if you wish to place a freeze on all of your credit files. In order to

request a security freeze, you will need to supply your full name, address, date of birth, Social Security number, current address, all addresses for up to five previous years, email address, a copy of your state identification card or driver's license, and a copy of a utility bill, bank or insurance statement, or other statement proving residence. **Place a fraud alert:** At no charge, you can also have the three major credit bureaus place a “fraud alert” on your file that alerts creditors to take additional steps to verify your identity prior to granting credit in your name. Note, however, that because it tells creditors to follow certain procedures to protect you, it may also delay your ability to obtain credit while the agency verifies your identity. As soon as one credit bureau confirms your fraud alert, the others are notified to place fraud alerts on your file. Should you wish to place a fraud alert, or should you have any questions regarding your credit report, please contact the credit reporting agencies.

**Review additional resources:** You can further educate yourself regarding identity theft, security freezes, fraud alerts, and the steps you can take to protect yourself against identity theft and fraud by contacting the Federal Trade Commission or your state Attorney General. The Federal Trade Commission encourages those who discover that their information has been misused to file a complaint with them. Instances of known or suspected identity theft should be promptly reported to law enforcement, the Federal Trade Commission, and your state Attorney General.
