Re:	Client	:	Metropolitan Area Planning Council
	Matter	:	Data Security Incident

Dear Attorney General:

We are writing on behalf of Metropolitan Area Planning Council (“MAPC”) with respect to a potential data security incident described in more detail below. MAPC takes the security and privacy of the information in its control seriously, and has taken steps to prevent a similar incident from occurring in the future.

This letter will serve to inform you of the nature of the security breach, the number of New Hampshire residents that were potentially affected, what information has been compromised, and the steps that MAPC is taking to secure the integrity of its systems. We have also enclosed hereto samples of the notifications made to the potentially impacted individuals, which includes an offer of free credit monitoring.

1. Nature of the Security Incident

On November 18, 2023, MAPC discovered it was experiencing a ransomware attack. MAPC immediately began shutting off all access to its network in effort to contain the incident and engaged a specialized third-party forensic incident response to assist with securing the network environment and investigating the extent of unauthorized activity.

On November 19, 2023, MAPC learned that the unauthorized actor gained access to and encrypted some of its systems. Additionally, the unauthorized actor claimed to have exfiltrated data from MAPC’s environment.

MAPC worked diligently to internally review the affected files potentially impacted in this incident and determine whether they contained personal information (“PI”). On November 24, 2023, MAPC determined that employee PI may have been exfiltrated. Therefore, out of an abundance of caution, MAPC opted to notify all current employees. Current employees were notified on December 15, 2023.

MAPC then engaged a vendor to perform data mining on all documents potentially exfiltrated by the threat actor. After extensive electronic discovery, which concluded on December 29, 2023, MAPC notified the remaining potentially impacted individuals on January 16, 2024.

As of this writing, MAPC is unaware of any misuse of personal information.

2. New Hampshire Residents Notified

Nine (9) New Hampshire residents were potentially affected by this security incident. Notification letters were mailed to the potentially impacted individuals on December 15, 2023, by first class mail. A sample copy of the notification letter is included with this letter.

3. Steps Taken

Although MAPC is not aware of any evidence of misuse of personal information, MAPC has extended to the potentially impacted individual an offer for free credit monitoring and identity theft protection through Sontiq. This service will include of credit monitoring, along with a fully managed identity theft recovery service, should the need arise. MAPC has changed passwords, strengthened password requirements, and implemented stricter multi-factor authentication requirements.

4. Contact Information

MAPC remains dedicated to protecting the sensitive information in its control. If you have any questions or need additional information, please do not hesitate to contact me at

Very truly yours,

Lewis Brisbois Bisgaard & Smith LLP

Erica J. Lloyd, Esq.
