New Hampshire Hospital Landscape Evolution – 2012 to Today

- In New Hampshire, the hospital composition has shifted from 80% independent to 80% who are members of a system.
- 60% of US hospitals are part of a health system.
- The number of independent hospitals is shrinking by about 1% a year.
- Approximately 100 rural hospitals have closed in the United States over the past 10 years.
- 53.2% of US standalone hospitals have lost money on their operating balance every year for the past five years compared to 25.9% of system-owned hospitals.

NH Hospital System 2012 - 2016

Benefits to New Hampshire

Invest in Needed Capacity

Bolster Rural Health Care

Invest in Workforce & Housing

Improve Access

Combat Opioid Crisis &
Substance Abuse, Veteran's Care
& Behavioral Health Issues

Improve Quality/Manage Costs

A Combination

What does this mean?

Each organization will keep its:

- Identity & Mission
- Name, Brand & Community Spirit
- Employees
- Physicians
- Local Board

And, as a system, D-HHGO will be able to offer:

- More convenient, cost-effective care options
- More career opportunities for our employees
- Resources of an academic health system

What's Happening Now?

Due diligence – we're learning about each other's organizations and writing our formal agreement

Internal education – speaking to all our employees

External education – meeting with patients, neighbors, employers, elected officials and others

Public forums – we will hold official comment sessions this fall, after filing our agreement
