## **Section 2: MISSION & COMMUNITY SERVED**

Mission Statement: The mission of Mid-State Health Center is to provide sound primary health care to the community accessible to all regardless of ability to pay.

Has the Mission Statement been reaffirmed in the past year (*RSA 7:32e-1*)? Yes

Please describe the community served by the health care charitable trust. "Community" may be defined as a geographic service area and/or a population segment.

Service Area (Identify Towns or Region describing the trust's primary service area):

Mid-State defines its service area as Southern Grafton County and portions of Merrimack and Belknap Counties, including but not limited to the towns of: Alexandria, Ashland, Bridgewater, Bristol, Campton, Danbury, Dorchester, Ellsworth, Grafton, Groton, Hebron, Holderness, Lincoln, New Hampton, Orange, Plymouth, Rumney, Thornton, Waterville Valley, Wentworth and Woodstock

Service Population (Describe demographic or other characteristics if the trust primarily serves a population other than the general population):

As a federally qualified community health center, Mid-State serves the primary health care, behavioral health, substance use disorder treatment and oral health needs of the general population offering services on a sliding fee scale to those who qualify based on income level.

**Section 3: COMMUNITY NEEDS ASSESSMENT**

In what year was the last community needs assessment conducted to assist in determining the activities to be included in the community benefit plan?

2017 (Please attach a copy of the needs assessment if completed in the past year)

Was the assessment conducted in conjunction with other health care charitable trusts in your community? Yes

Based on the needs assessment and community engagement process, what are the priority needs and health concerns of your community?

Please provide a description of the methods used to solicit community input on community needs (attach additional pages if necessary): Mid-State uses a variety of research and trusted data sources to collect and report various demographic and historical data for our region including our own Electronic Health Record. During the period May through September 2017, an assessment of Community Health Needs Assessment of the Central New Hampshire region was completed by the Central New Hampshire Health Partnership. The purpose of the assessment was to identify community health concerns, priorities and opportunities for community health and health care delivery systems improvement. For the purpose of the assessment, the geographic area of interest was 18 municipalities comprising the Central New Hampshire Public Health Region with a total resident population of 30,039, and served by the member agencies of the Central New Hampshire Health Partnership ([www.cnhhp.org](http://www.cnhhp.org)). Methods employed in the assessment included surveys of community residents made available online and paper surveys placed in numerous locations throughout the region; a direct email survey of key stakeholders

and community leaders representing multiple community sectors; a set of community discussion groups; compilation of results from assessment activities focused specifically on behavioral health needs and gaps; and a review of available population demographics and health status indicators. All information collection activities and analyses sought to focus assessment activities on vulnerable and disproportionately served populations in the region including populations that could experience limited access to health-related services or resources due to income, age, disability, and social or physical isolation. For more detail, please refer to the complete 2017 Central New Hampshire Health Partnership Community Health Needs Assessment available online on the Mid-State Health Center website: [www.midstatehealth.org](http://www.midstatehealth.org). The region will be conducting a community needs assessment in the spring of 2020.
