Amoskeag Health takes an active role in the Greater Manchester Regional Public Health Network. For the 2022 Greater Manchester Community Health Needs Assessment, Amoskeag Health worked in collaboration with the City of Manchester Health Department to assist in the distribution of questionnaires to our patients to solicit feedback on the needs demonstrated in our service area. Amoskeag Health also uses quarterly patient satisfaction surveys to gather patient feedback on a variety of questions and sends a post-visit survey to patients for which they can provide open ended feedback. This has greatly assisted our ability to understand the needs that our patients are experiencing. We also regularly complete individual patient assessments in the areas of social determinants of health which help us to better understand the challenge areas of our patients.
