I. Foreword

As required by Internal Revenue Code 501 (r) (3) Exeter Hospital, in collaboration with a representation of its community partners, has compiled the following report outlining the findings of its 2016 Community Health Needs Assessment (CHNA). Section 501 of the Code requires tax-exempt “hospital organizations” to conduct a CHNA at least once every three taxable years. The report and its findings are specific to the hospital’s geographic service area of 35 towns located within Rockingham County. However, for the purpose of this report, due to the fact that many statistics are only available at the county level, data for the entirety of Rockingham County, including towns not included in the Hospital’s primary service area, will be used to describe Exeter Hospital’s service area where quantitative data is needed. The purpose of the CHNA is to identify and assess the significant health needs of the communities served by the hospital, and to “prioritize those health needs and identify potential measures and resources available to address the health needs.” (26 CFR)

To complete the CHNA a steering group comprised of individuals possessing broad and deep knowledge of the health needs of the community was formed in January 2016. The steering committee included representatives from Exeter Hospital, Lamprey Health Care, United Way of the Greater Seacoast, Seacoast Mental Health Center, Richie McFarland, the Exeter Area YMCA, Easter Seals and Families First Health and Support Center. Over the course of eight months this group met to plan the CHNA process and subsequently compiled relevant qualitative input and quantitative data through the use of key leader interviews, open community forums, online surveys, a random telephone survey conducted by the University of New Hampshire and the review and analysis of available secondary data sources. (See page 27) The findings noted within this report provide insight to the health and well-being of the communities served by Exeter Hospital, as well as the health related needs of those living within its geographic service area. Utilizing these findings the hospital, along with its community partners, is better able to allocate appropriate resources to help meet the important identified health related needs and further advance its mission of improving the health of the communities it serves.

II. 2016 Steering Committee

Emily Carbonara, Administrative Intern, Exeter Health Resources

Jay Couture, Executive Director, Seacoast Mental Health Center

Loree Hazard, Service Line Administrator, Exeter Health Resources

James Paige, Health & Wellness Director, Exeter Area YMCA

Maria Reyes, Seacoast Public Health Network, Lamprey Health Center

Anita Rozeff, Grants and Contracts Manager/Compliance Officer, Lamprey Health Care

Susan Ryan, Chief Operating Officer, Easter Seals NH

Susan Silsby, SVP of Adult Programs, Easter Seals NH

Peggy Small-Porter, Executive Director, Richie McFarland Children's Center

Helen Taft, Executive Director, Families First Health and Support Center

Debra Vasapolli, Director of Community Relations, Exeter Health Resources

Margie Wachtel, Communications Director, Families First Health and Support Center

Andrew Walker, Branch Director, Exeter Area YMCA

Mark Whitney, VP Strategic Planning, Exeter Health Resources

Lauren Wool, Senior Director, Community Impact, United Way of the Greater Seacoast

Brennan Young, Administrative Intern, Exeter Health Resources

III. Executive Summary

The results of the 2016 Community Health Needs Assessment (CHNA) remain comparable to the key findings of the 2013 CHNA report. However; in some cases, although the finding may be consistent with the 2013 report, the circumstance or barriers attributed to the need have changed.

Findings

Access to care due to insurance coverage cost barriers

As depicted in the 2013 Community Health Needs Assessment, access to healthcare services continues to be a notable concern through 2016. The implementation of health insurance reform through the Affordable Care Act, Medicaid expansion and the NH Health Insurance Marketplace have increased access to coverage, however an increased number of NH residents are now underinsured or unable to pay for services due to high-deductible health plans as well as expensive co-pays through insurance plans.

Behavioral Health

Substance Abuse and Addiction:

As depicted in the 2013 Community Health Needs Assessment, substance abuse and addiction in both youth and adult populations remains a significant need. Illicit drugs, alcohol, and prescription medications are abused by both youth and adult populations, but it is difficult to receive care for substance abuse. This is especially true due to the large population of New Hampshire residents who are currently underinsured or receiving care from Medicaid programs.

Mental Health Services:

Mental health services are another component of behavioral health that has risen as a prominent health need in the community. There is significant correlation between substance abuse and mental health services, and therefore it is important to address both concerns under the overarching theme of behavioral health. Many individuals suffering from mental health disorders do not, or cannot receive treatment due to barriers such as cost and the scarcity of services. This health need is therefore of utmost importance in the greater Exeter Hospital service area.

Youth Suicide/ Substance and Prescription Drug Abuse

Suicide remains the second leading cause of death in N.H. after accidental injury for individuals age 10-34.

Transportation

Transportation is another area of need, especially for elderly, the disabled, and people suffering from illnesses who may require regular travel for healthcare appointments. Currently in the community, this need is not being adequately met, as many vulnerable populations lack access to transportation. This affects the ability for individuals to attend appointments and/or become consistent members of the local workforce.

Affordable Housing/ Homelessness

Affordable housing is a significant need throughout the community, as 35.54% of households in Rockingham County are burdened with household costs that are over 30% of their total income. In terms of homelessness, the homeless population grew 17.48% between 2012 and 2014, displaying a need for stronger support services for those in need of shelter.

Elder Care and Support Services

Support services for the elderly remains a key health concern, especially as the elderly population continues to rise. An increase in the elderly population means a need for more social services to support them. These services include, but are not limited to: adult day programs, transportation, legal services, home health services, prevention and wellness programs, dental services, end of life care, etc. With the rapid increase of residents reaching the age of 65 and above, the need for all of these elder care and support services are of vital importance.

IV. Introduction

In 2016 Exeter Hospital, together with its community partners, conducted a Community Health Needs Assessment (CHNA). The purpose of the CHNA process was to *identify and assess the health needs* of community members living within the hospital's defined geographic service area. As required by section 501 (r) (3) of the Patient Protection and Affordable Care Act, the findings identified throughout this process are detailed below in the 2016 CHNA report. This report will be adopted by the Exeter Hospital's governing body in September 2016, and includes:

(1) a definition of the communities served by the hospital facility and a description of how the communities were determined; (2) a description of the process and methods used to conduct the CHNA; (3) a description of how the hospital facility took into account input from persons who represent the broad interests of the community; (4) a prioritized description of the significant health needs identified through the CHNA; and (5) a description of potential measures and resources identified through the CHNA to address significant health needs.¹

In understanding the health of the community members of Rockingham County, it is important to review the Social Determinants of Health (SDOH). "Social determinants of health are conditions

¹ (IRS 26 CFR Parts 1 and 53)

in the environments in which people are born, live, learn, work, play, worship, and age that affect a wide range of health, functioning, and quality-of-life outcomes and risks.”²

² Healthy People 2020, healthypeople.gov

“A “place-based” organizing framework, reflecting five (5) key areas of social determinants of health was developed by Healthy People 2020.”³ These five key areas (determinants) include:

1. Economic Stability
2. Education
3. Social and Community Context
4. Health and Health Care
5. Neighborhood and Built Environment

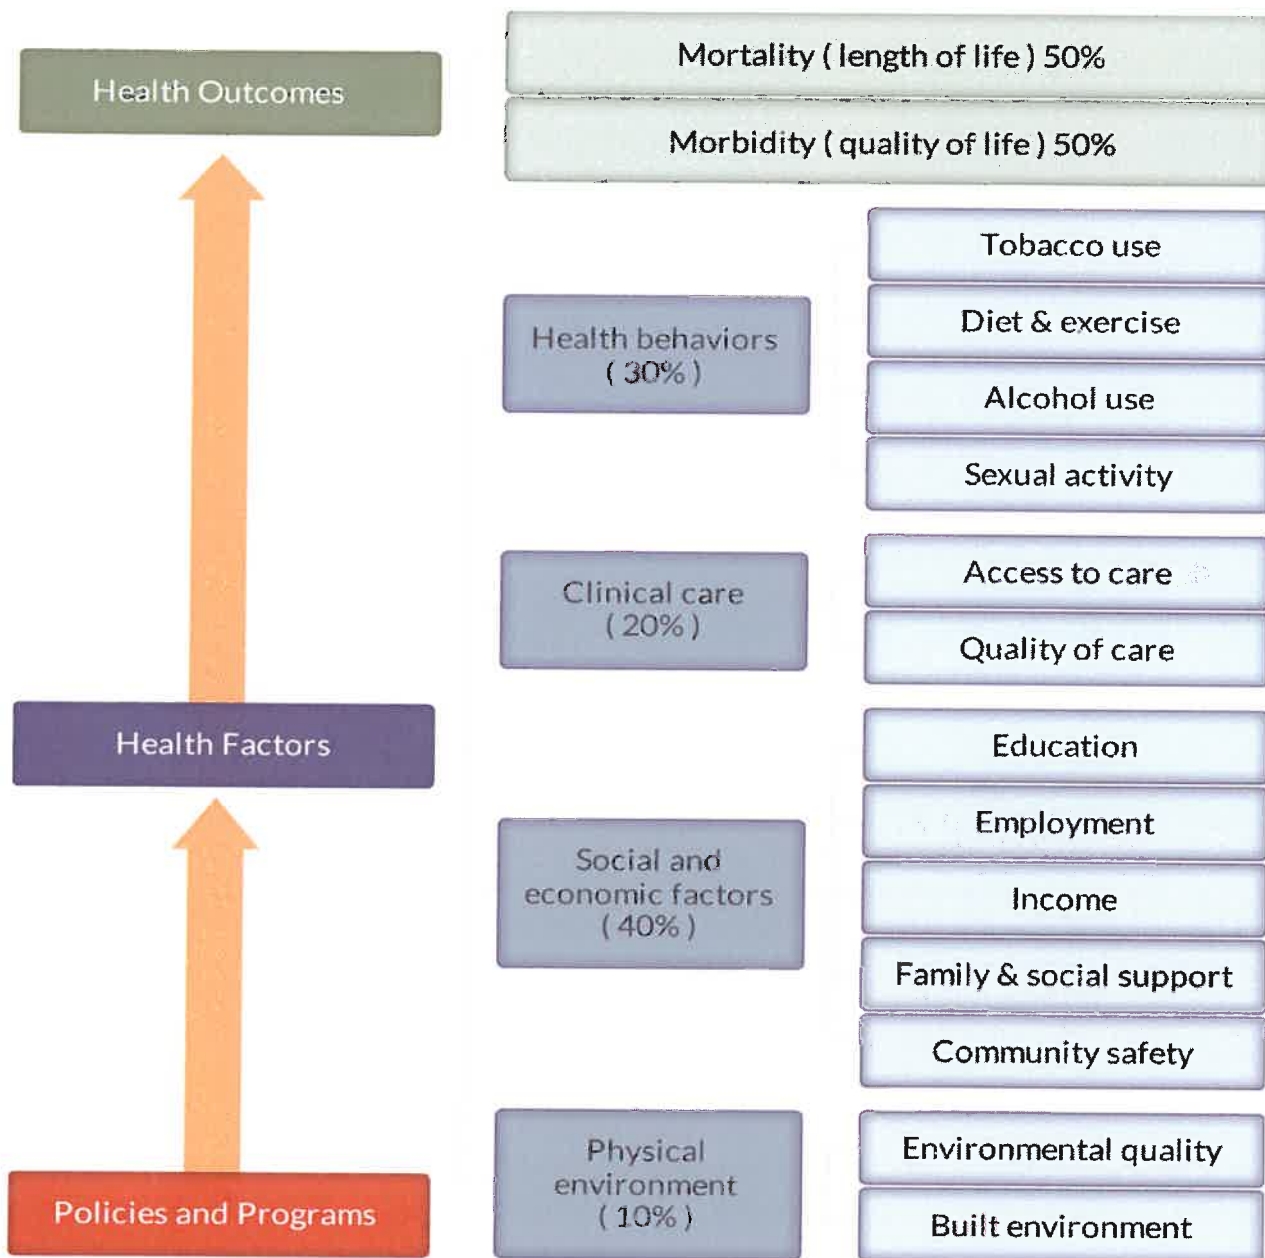

“Health starts where we live, learn, work and play.”⁵

The following chart from the County Health Rankings model further demonstrates the social determinants of health and their influence on health outcomes.

³ Healthy People 2020, [healthypeople.gov](https://www.healthypeople.gov)

⁴ [HealthyPeople.gov](https://www.healthypeople.gov)

⁵ A New Way to Talk About the Social Determinants of Health **VULNERABLE POPULATIONS PORTFOLIO**

County Health Rankings model ©2012 UWPHI

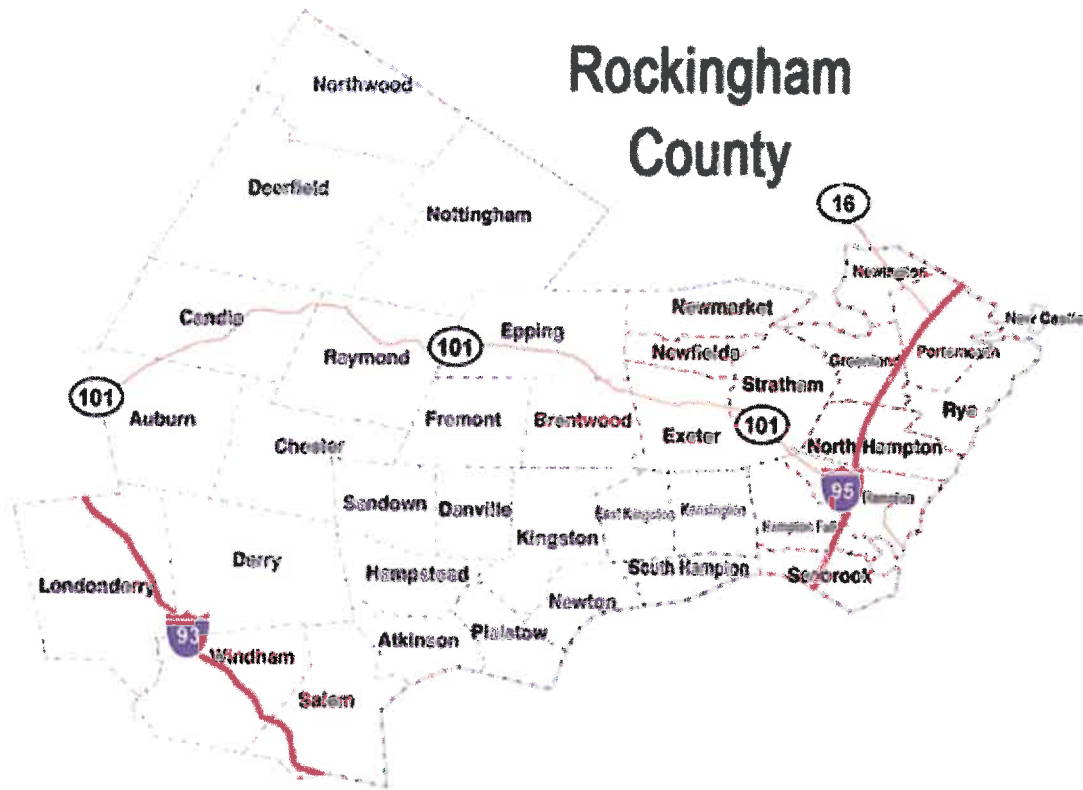

V. Geographic Service Area

Exeter Hospital's CHNA was conducted using the Assigned Hospital Service area as its geographic boundary. The following towns comprise the primary service area of Exeter Hospital, and are all located within Rockingham County. Some towns within Rockingham County are not shown because they are not representative of the primary service area. However, for the purpose of this report, due to the fact that many statistics are only available at the county level, data for the whole of Rockingham County will be utilized.

Exeter Hospital Service Area by Town:

Atkinson	Madbury
Barrington	New Castle
Brentwood	Newfields
Danville	Newington
Deerfield	Newmarket
Dover	Newton
Durham	Newton Junction
East Hampstead	North Hampton
Eliot (ME)	Nottingham
East Kingston	Plaistow
Epping	Portsmouth
Exeter	Raymond
Fremont	Rye
Greenland	Sandown
Hampstead	Seabrook
Hampton	South Hampton
Hampton Falls	Stratham
Kensington	
Kingston	
Lee	

Exeter Hospital Service Area Graphically (Rockingham County):

Exeter Hospital's Service area, as determined by the state, is based upon the number of discharges within each community.

VI. Demographics of Rockingham County

The following demographic information is from the U.S. Department of Commerce, United States Census Bureau.

Population	Rockingham County	New Hampshire
Population, 2015 estimate	301,777	1,330,608
Population, 2010 (April 1) estimate base	295,223	1,316,466
Population, percent change, April 1, 2010 to July 1, 2015	2.2%	1.1%
Population, census, April 1, 2010	295,223	1,316,470
<i>Age and Sex:</i>		
Persons under 5 years, percent, 2015	4.6%	4.9%
Persons under 18 years, percent, 2015	20.3%	19.8%
Persons 65 years and over, percent, 2015	15.8%	16.5%
Female persons, percent, 2015	50.5%	50.6%
<i>Race and Hispanic Origin:</i>		
White alone, percent, 2015 (a)	95.4%	93.9%
Black or African American alone, percent, 2015 (a)	0.9%	1.5%
American Indian and Alaska Native alone, percent, 2015 (a)	0.2%	0.3%
Asian alone, percent, 2015 (a)	2.0%	2.6%
Two or more races, percent, 2015	1.4%	1.6%
Hispanic or Latino, percent, 2015 (b)	2.7%	3.4%
White alone, not hispanic or Latino, percent 2015	93.1%	91.0%

(a) Includes Persons reporting only one race

(b) Hispanics may be of any race, so also are included in applicable race categories

<i>Housing:</i>		
Housing units, 2015	129,359	622,561
Owner-occupied housing unit rate, 2010-2014	76.6%	71.0%
Median value of owner-occupied housing units, 2010-2014	\$279,800	\$237,400
Median selected monthly owner costs-with a mortgage, 2010-2014	\$2,154.00	\$1,905
Median selected monthly owner costs-without a mortgage, 2010-2014	\$816	\$739
Median gross rent, 2010-2014	\$1,114	\$11,001
Households, 2010-2014	117,284	519,580
Persons per household, 2010-2014	2.52	2.46
Per capita income in the past 12 months (in 2014 dollars), 2010-2014	\$39,605	\$33,821
Median household income (in 2014 dollars), 2010-2014	\$79,368	\$65,986
Persons in poverty, percent, 2014	6.1%	9.2%

Health:

Persons with a disability, under age 65 years, percent, 2010-2014	6.8%	8.3%
Persons without health insurance, under age 65 years, percent	9.2%	10.8%

Economy:

In civilian labor force, total, percent of population age 16+, 2010-2014	71.8%	68.6%
In civilian labor force, female, percent of population age 16+, 2010-2014	66.5%	64.1%
Total health care and social assistance receipts/revenue, 2012 (\$1000)	1,697,740	9,616,460

Transportation:

Mean travel time to work (minutes), workers age 16+, 2010-2014	29.5	26.6

Small Area Income and Poverty Estimate (SAIPE)

All ages in Poverty, 2014 - New Hampshire - Rockingham County

Year	ID	Name	Number	90% Confidence Interval	Percent	90% Confidence Interval
2014	0	United States	48,208,387	47,966,830 to 48,449,944	15.5	15.4 to 15.6
2014	33000	New Hampshire	117,822	112,610 to 123,034	9.2	8.8 to 9.6
2014	33015	Rockingham County	18,267	15,339 to 21,195	6.1	5.1 to 7.1

VII. Methodology/Process

The 2016 CHNA process included gathering and reviewing both qualitative and quantitative data through the use of a random telephone survey conducted by the University of New Hampshire, open community forums, online surveys, key leader interviews, outreach to support agencies, and the review of relevant secondary data sources. As a component of the forums and online surveys, respondents were asked to participate in prioritizing qualitative health needs.

1. UNH Survey Center Household Telephone Survey

Utilizing the University of New Hampshire Survey Center, a random household telephone survey was conducted as a means to collect information regarding community members' health status and to identify their healthcare needs.

The telephone survey timeframe and the number of respondents per year are outlined below:

<u>Year</u>	<u># Respondents</u>
2013	2,624
2014	2,427
2015	2,420
2016	1,156

In total 8,645 healthcare decision makers residing within the hospital's service area participated in the survey. Of those respondents, 85% rated their health status as good, very good or excellent; 94% reported having a primary care physician, and miscellaneous ailments were most commonly reported as the "most important health related concern."

Current Health

Figure 1: "In general, would you say your health is excellent ... very good ... good ... fair ... or ... poor?" (Q1)

Primary Care Physicians

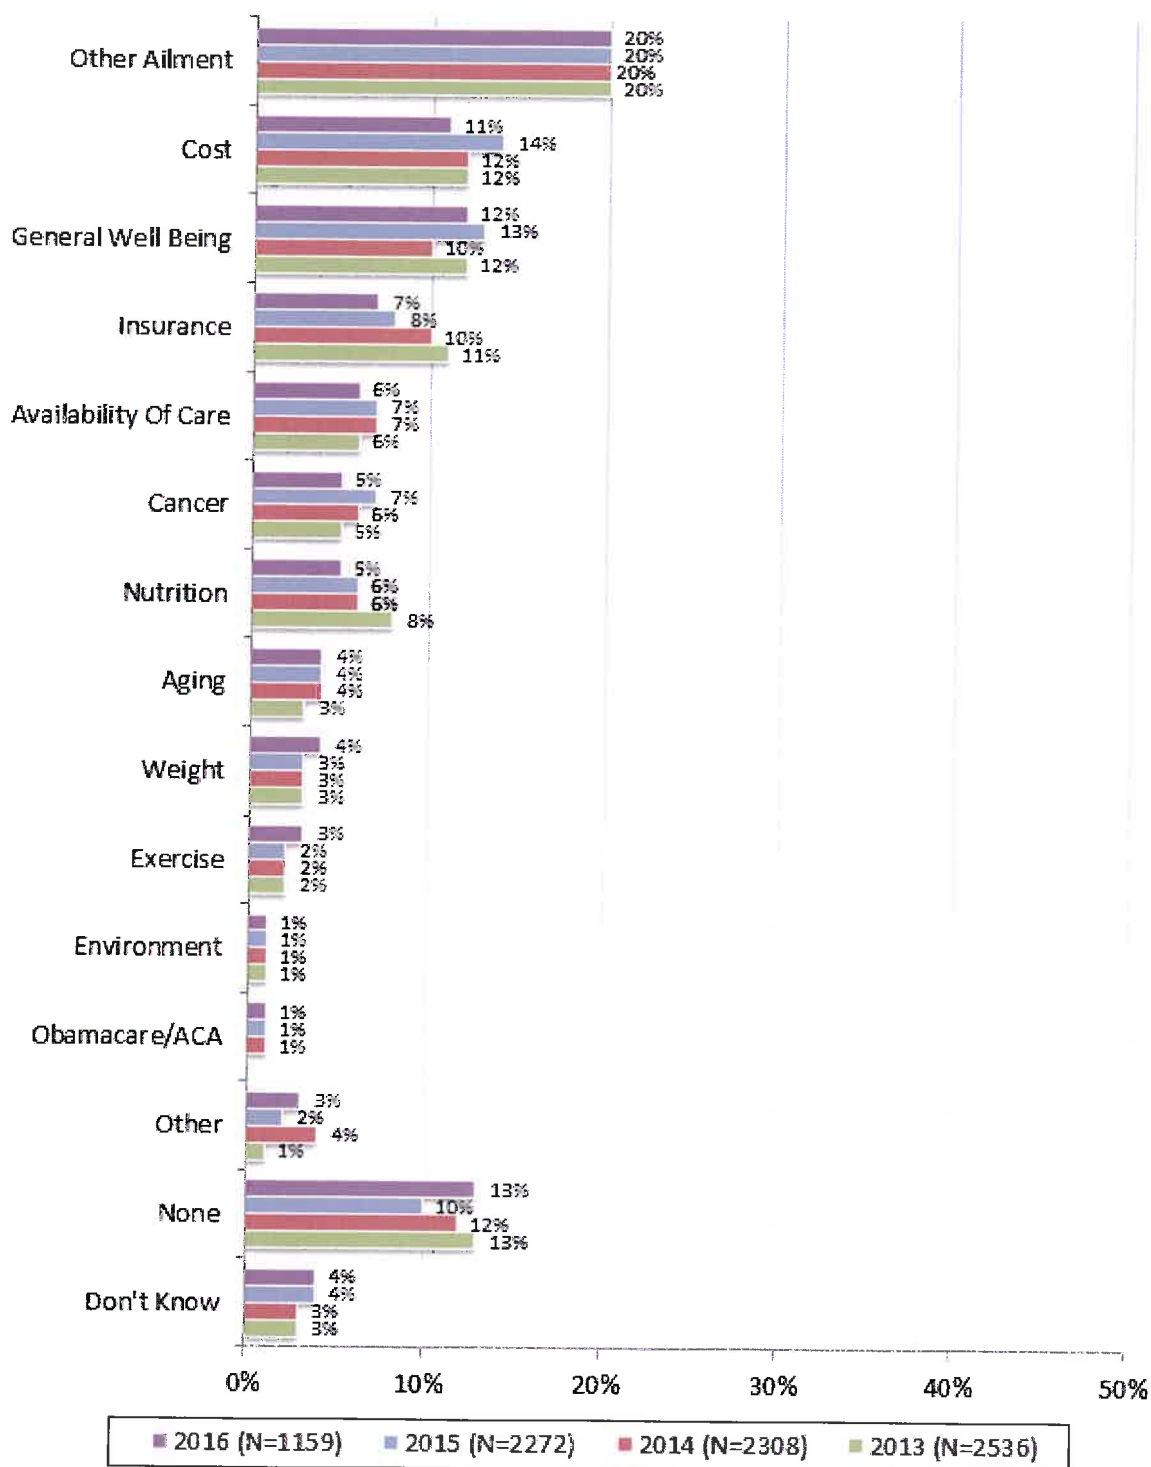

Figure 3: "Do you have a primary care provider, or PCP, that is, a doctor who you regularly see for routine medical care or if you became sick?" (Q3)

Figure 3: % With a Primary Care Provider (Q3)

Health Related Concerns

Figure 4: "What is the most important health related concern that you have for you and your family?"(Q4) **Data reflects 2013-2016

2. Community Forums

A total of four Community Forums were planned and promoted to the general public. The community forums were promoted via email, social media, websites and paid print advertisements. Invitations were sent to key community leaders, including Rockingham County's 84 elected state representatives (see Appendix D).

Scheduled forum dates and locations:

Wednesday, April 27, 2016
Exeter Hospital
Exeter, NH

Wednesday, May 11, 2016
Raymond Baptist Church
145 Route 27
Raymond, NH

Tuesday, May 17, 2016
Vic Geary Senior Center
18 Greenough Rd
Plaistow, NH

Wednesday May 18, 2016
Seabrook Public Library
25 Liberty Lane, Seabrook, NH

Note- Only the Exeter Forum had attendees (21) therefore three additional "pop" up forums were held during existing community events.

Senior Luncheon, May 10, 2016

Key Themes included:

- *Transportation*
- *A lack of coordination between providers regarding prescription medication*
- *Difficulty in opening prescription medication containers*
- *Lack of affordable coverage*

Raymond Baptist Church Dinner June 20, 2016 (80 attendees)

Key themes included:

- *Access to reliable transportation for life necessities and medical appointments.*
- *Need for social services resource information*
- *Access to healthy nutrition*
- *Challenges associated with navigating medical systems and cost of medications/co-pays*

Rockingham County Community Resource Network, May 20, 2016
Rockingham County Nursing Home

There were 52 individuals in attendance representing 43 agencies. We presented the CHNA project to the full group. The following items were identified (in rank order) as the most significant challenges:

1. Staffing and recruitment (primarily for front line workers)
 - a. Private duty nursing
 - b. Home care
 - c. Developmental disability services
2. Treatment options for drug/alcohol misuse/abuse
3. Affordable housing
4. Transportation
5. Adult dental

See attached promotions Appendix F

During Exeter's community forum, an overview of the CHNA requirements and the process through which the CHNA committee intended to gather information was reviewed with attendees. The overview also included the timeline for completing the project as well as notification that a draft of the report would be distributed and posted on Exeter Hospital's website for community review and feedback in advance of the report's completion. Key findings from the 2013 report were reviewed along with notable environmental changes since that time, i.e., changes in the economy, unemployment rates, Medicaid expansion and impact of the N.H Insurance Exchange.

Following the overview, community members engaged in an open discussion and provided verbal insight into the significant health needs of their communities. Comments and/or discussion points follow below. The below forum discussion themes are in no particular order and are not prioritized.

Mental Health Services

Transportation

Home Health Services

Elderly Services

Access to Nutritious Food
Adult Dental Care
Opioid Crisis
Substance Misuse and Prevention Services
Access to Affordable Primary Care Services
Prescription Labeling for Visually Impaired
Healthcare Navigation
Pediatric Home Health Care
Youth Suicide Prevention
Homelessness
Obesity
Lack of Information of Healthcare Services Available
Access to Care for Veterans

3. Exeter Hospital Staff Survey

Exeter Hospital together with its affiliates Core Physicians and Rockingham VNA & Hospice, offered a voluntary online health needs assessment to each organization's employee base. In total 314 people participated.

In general, would you say your health is:

	<u><i>EH Survey</i></u>
Base	100%
Very good	47%
Good	48%
Fair	5%
Poor	1%

Please tell us what is the most important health related concern you have for you and your family.

No access to transportation	9%
No resources to find a physician	3%
Other	6%
Not sure	22%

*NOTE: See Appendix F for additional comments pertaining to the Exeter Hospital Staff Survey

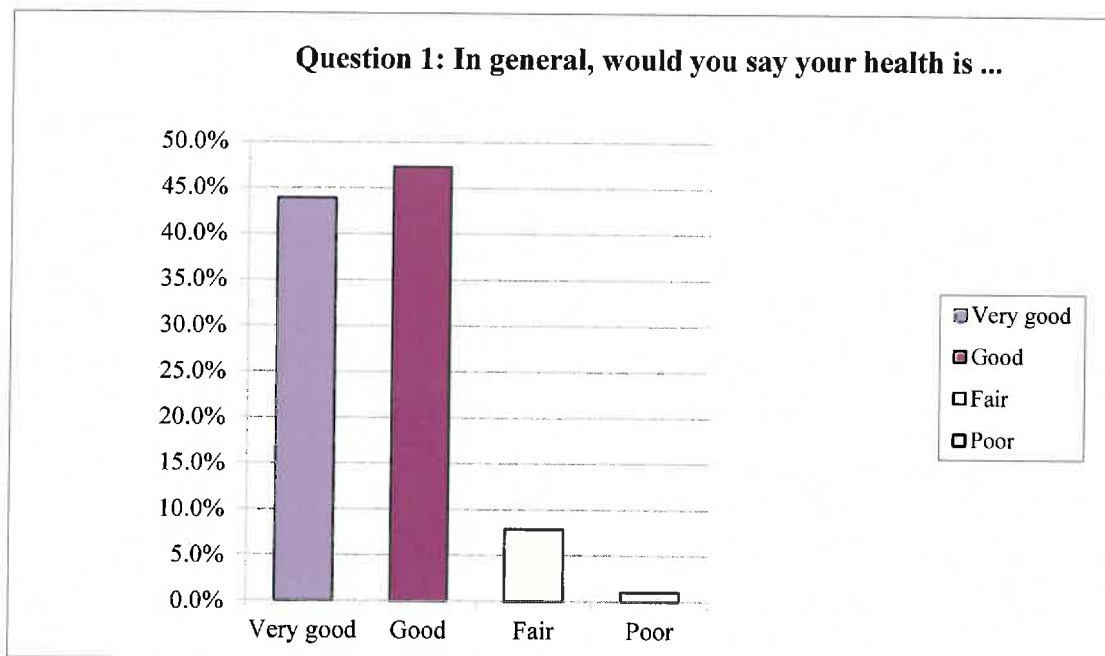

4. Public Online “Survey Monkey”

Exeter Hospital together with its community partners, released an online health needs survey to the public. The survey asked four questions and encouraged additional comments. In total, 797 people, affiliated with more than 19 different organizations, participated in the survey.

General Health

Question 1: In general, would you say your health is ...

Answer Options	Response Percent	Response Count
Very good	43.9%	349
Good	47.3%	376
Fair	7.8%	62
Poor	1.0%	8
<i>answered question</i>		795
<i>skipped question</i>		2

Health Related Concerns

Question 2: Please tell us what is the MOST important health-related concern you have for you and your family.

Answer Options	Response Percent	Response Count
Access to care due to insurance coverage cost barriers such as high co-pays and deductibles	41.3%	327
Access to care due to being uninsured	3.0%	24
Access to care due to scheduling issues with provider	8.8%	70
Access to appropriate medications due to insurance coverage cost barriers such as high co-pays and deductibles	6.6%	52
Access to appropriate medications due to being uninsured	0.1%	1
I do not have any health-related concerns for me or my family	28.8%	228
Other (please specify)	11.4%	90
<i>answered question</i>		792
<i>skipped question</i>		5

Question 2: Please tell us what is the MOST important health-related concern you have for you and your family.

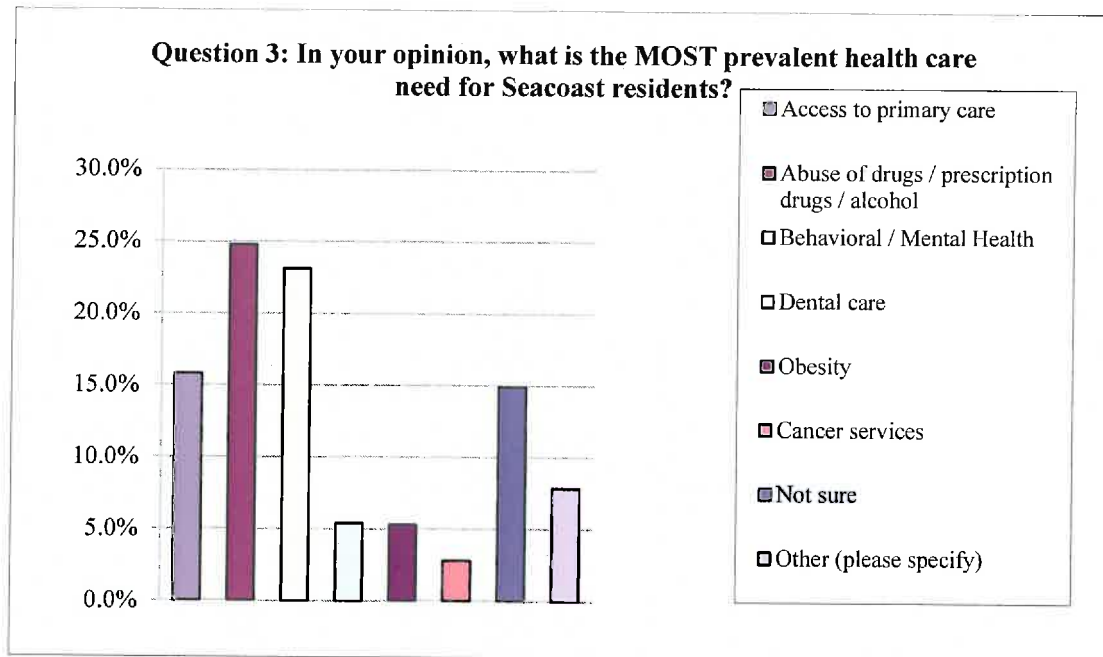

- ☒ Access to care due to insurance coverage cost barriers such as high co-pays and deductibles
- ☒ Access to care due to being uninsured
- ☐ Access to care due to scheduling issues with provider
- ☐ Access to appropriate medications due to insurance coverage cost barriers such as high co-pays and deductibles
- ☒ Access to appropriate medications due to being uninsured
- ☒ I do not have any health-related concerns for me or my family
- ☒ Other (please specify)

Prevalent Health Care Needs

Question 3: In your opinion, what is the MOST prevalent health care need for Seacoast residents?

Answer Options

Answer Options	Response Percent	Response Count
Access to primary care	15.8%	125
Abuse of drugs / prescription drugs / alcohol	24.8%	196
Behavioral / Mental Health	23.1%	183
Dental care	5.4%	43
Obesity	5.3%	42
Cancer services	2.8%	22
Not sure	14.9%	118
Other (please specify)	7.8%	62
answered question		791
skipped question		6

Barriers to Access

Question 4: In your opinion, what is the PRIMARY reason Seacoast residents are NOT able to access health care services?

Answer Options

Answer Options	Response Percent	Response Count
No insurance or underinsured	47.7%	377
No access to transportation	8.7%	69
No resources to find a physician	3.3%	26
Not sure	27.6%	218
Other (please specify)	12.8%	101
answered question		791
skipped question		6

Question 4: In your opinion, what is the PRIMARY reason Seacoast residents are NOT able to access health care services?

5. Key Leader Interviews

Interviews were conducted with key leaders who were identified as having broad knowledge of the health needs of the communities served including the “underserved” and “low income” populations. A complete list of interviewees is included in the Appendix of this document as well as the key leader questionnaire.

In total, 27 key leader interviews were conducted during the months of May, June, and July 2016. Of the 27 interviews conducted, emerging themes regarding significant health needs are prioritized below:

1. Cost of Healthcare (High Co-Pays/Deductibles, Cost of medication)
2. Affordable Housing & Resources for Homeless Population
3. Transportation
4. Mental Health Services
5. Substance Abuse Services
6. Elder Care and Support Services
7. Dental Care
8. Military/Veteran Health Services
9. Care for Physically Disabled
10. Obesity (& correlated Diabetes)

6. Secondary Research Sources:

Additional secondary resources were reviewed to further understand the health status of people living within Rockingham County. These sources include, but are not limited to:

VIII. 2016 CHNA Outcomes Prioritized

Access to care due to insurance coverage cost barriers

As depicted in the 2013 Community Health Needs Assessment, access to healthcare services continues to be a notable concern through 2016. However, with the implementation of health insurance reform through the Affordable Care Act and NH Health Insurance Marketplace, there has been a shift in the largest barrier of access. The State is reducing the uninsured population every year, but this evokes a new issue; NH residents are now faced with being *underinsured* or unable to pay for services due to high-deductible health plans as well as expensive co-pays through insurance plans.

Statistics from the *Kaiser Family Foundation*, show that currently in New Hampshire 8% of the population remains uninsured, which is a significant drop from 13.8% of the population being uninsured in 2013. This is largely due to the NH health insurance “Marketplace”, which enrolled 55,183 into selected plans out of the total 61,336 residents who were eligible 2016 year enrollment period. This can be seen in the table below:

Location	Marketplace Type	Total Number of Individuals Determined Eligible to Enroll in a Marketplace Plan	Number of Individuals Eligible to Enroll in a Marketplace Plan with Financial Assistance	Determined or Assessed Eligible for Medicaid/CHIP by the Marketplace	Number of Individuals Who Have Selected a Marketplace Plan
New Hampshire	FFM	61,336	41,901	8,031	55,183

Graph Courtesy of the Kaiser Family Foundation, <http://kff.org/health-reform/state-indicator/state-marketplace-statistics/?currentTimeframe=0&selectedRows=%7B%22nested%22:%7B%22new-hampshire%22:%7B%7D%7D%7D>

It is therefore evident that the 2016 health need has shifted from the uninsured population, to the underinsured population. The significance of this need is largely shown through the online survey conducted via “Survey Monkey” and distributed by Exeter Hospital as well as the community partners involved in the creation of this assessment. Most of the findings depict how high-cost health plans due to high deductibles and high co-pays are the reason for being underinsured. In the 2016 health insurance Marketplace, out-of-pocket cost can be no more

than \$6,850 for an individual plan and \$13,700 for a family plan before marketplace subsidies⁶. These numbers are unfortunately much too expensive for many individuals and families in NH, consequently producing the patterned responses recorded through “Survey Monkey.” Question 2 of the survey asked participants to: “Please tell us what is the MOST important health-related concern you have for you and your family.” The results, as shown in the Methodology/Process section of this reports are as follows:

Question 2: Please tell us what is the MOST important health-related concern you have for you and your family.		
Answer Options	Response Percent	Response Count
Access to care due to insurance coverage cost barriers such as high co-pays and deductibles	41.3%	327
Access to care due to being uninsured	3.0%	24
Access to care due to scheduling issues with provider	8.8%	70
Access to appropriate medications due to insurance coverage cost barriers such as high co-pays and deductibles	6.6%	52
Access to appropriate medications due to being uninsured	0.1%	1
I do not have any health-related concerns for me or my family	28.8%	228
Other (please specify)	11.4%	90
	<i>answered question</i>	792
	<i>skipped question</i>	5

Of the 792 respondents, 327, or 41.3% of answered that “access to care due to insurance coverage cost barriers such as high co-pays and deductibles” was the MOST important health-related concern for them. This number becomes even more significant when the percentages are re-calculated without the respondents who stated “I do not have any health-related concerns for me and my family.” Without the 228 people, or 28.8% of the responding pool, who chose this response, the new total of those who answered the question becomes 564, and the percentage of respondents who answered “access to care due to insurance coverage cost barriers such as high co-pays and deductibles” rises to 57.97%. This substantial percentage is further understood through comments from survey participants, stated below:

⁶ Obama Care Facts, <http://obamacarefacts.com/health-insurance/deductible/>

These statements are made in response to the question: "In your opinion, what is the MOST prevalent health care need for Seacoast residents?"

"...access to appropriate medications due to insurance barriers-high copays and deductibles, for example, cost of diabetes medications"

"...Anxiety regarding health insurance costs- not affordable!! I cleared \$100 a week working full time in a school for health insurance with a \$5000 family deductible!!! Obamacare is even less affordable. My husband is self-employed so I have to work for these "benefits"'"

"...Affordable health care plans without unreasonable deductibles"

These statements are made in response to the question: "In your opinion, what is the PRIMARY reason Seacoast residents are NOT able to access health care services?"

"...Costs are too high - even with "good" insurance most people do not go when they should because of the costs"

"...I was a health insurance underwriter for 10 years, and even I am confused and deterred by the system today. You need a graduate degree to decipher your health plan, the service on-line and/or over the phone is a frustrating, time-consuming process, and it is difficult to get time off from work to go to appointments. I wish it were as simple as one of the items above. I am highly educated, I have a very high-deductible plan and I find myself avoiding care, even preventive care because it is a hassle and it is very stressful.

"...high copays and deductibles, high cost of premiums"

The theme of being underinsured due to cost barriers is a theme found in many Key Leader Interviews as well. For example, Dr. Kevin McBride of the Raymond Baptist Church stated his concern that, "while the ACA may have raised some who had no protection, those who are just making it, the "working poor" people still struggle even with incentives and can't keep up with the premium increases." In addition, the Exeter Hospital Staff Survey also produced similar results with 38% of respondents stating that the most important health related concern they have for themselves and their families is "access to care due to insurance coverage cost barriers such as high co-pays and deductibles." (Graph displayed in Methodologies/Process on page 21).

Behavioral Health

Substance Abuse and Addiction:

Youth Substance Abuse:

According to the “Behavioral Health Barometer, New Hampshire 2015” report, prepared by the Substance Abuse and Mental Health Services Administration of U.S. Department of Health and Human Services, youth substance abuse in New Hampshire was higher than the national average through 2014. In New Hampshire, it was reported that 11,000 adolescents aged 12-17 (11.1% of all adolescents) reported using illicit drugs in 2013-2014 within the month prior to being surveyed:⁷

NH Youth Illicit Drug Abuse Percentage by Year

⁷ Substance Abuse and Mental Health Services Administration. Behavioral Health Barometer: New Hampshire, 2015. HHS Publication No. SMA-16-Baro-2015-NH. Rockville, MD: Substance Abuse and Mental Health Services Administration, 2015.

In terms of alcohol, youth in New Hampshire are also higher than the national average in terms of binge alcohol abuse. In the state, about 31,000 individuals aged 12-20 (19.5% of all individuals in this age group), reported binge alcohol use in 2013-2014 within the month prior to being surveyed:⁸

NH Youth Alcohol Abuse Percentage by Year

*Graph Courtesy of Substance Abuse and Mental Health Services Administration,
http://www.samhsa.gov/data/sites/default/files/2015_New-Hampshire_BHBarometer.pdf*

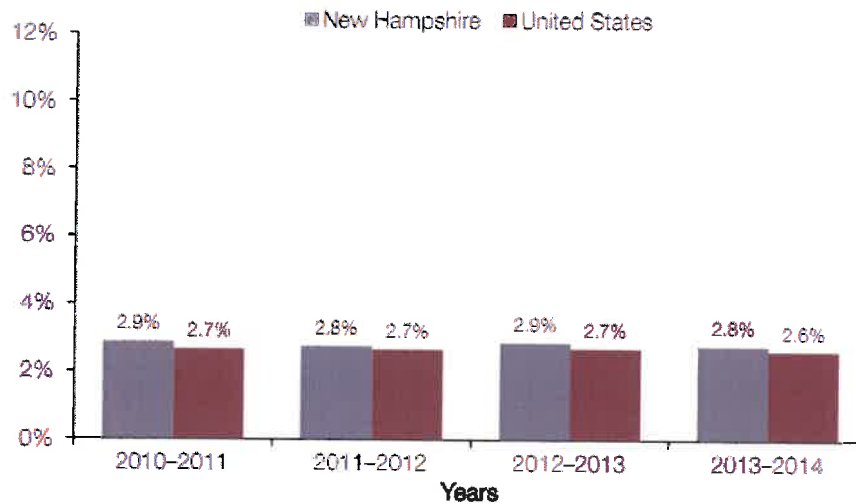

Adult Substance Abuse:

According to the “Behavioral Health Barometer, New Hampshire 2015” report, prepared by the Substance Abuse and Mental Health Services Administration of U.S. Department of Health and Human Services, about 32,000 individuals aged 12 or older (2.8% of all individuals in this age group) were dependent on or abused illicit drugs in 2013-2014 within the year prior to being surveyed.⁹

⁸ Substance Abuse and Mental Health Services Administration. Behavioral Health Barometer: New Hampshire, 2015. HHS Publication No. SMA-16-Baro-2015-NH. Rockville, MD: Substance Abuse and Mental Health Services Administration, 2015.

⁹ Same as above

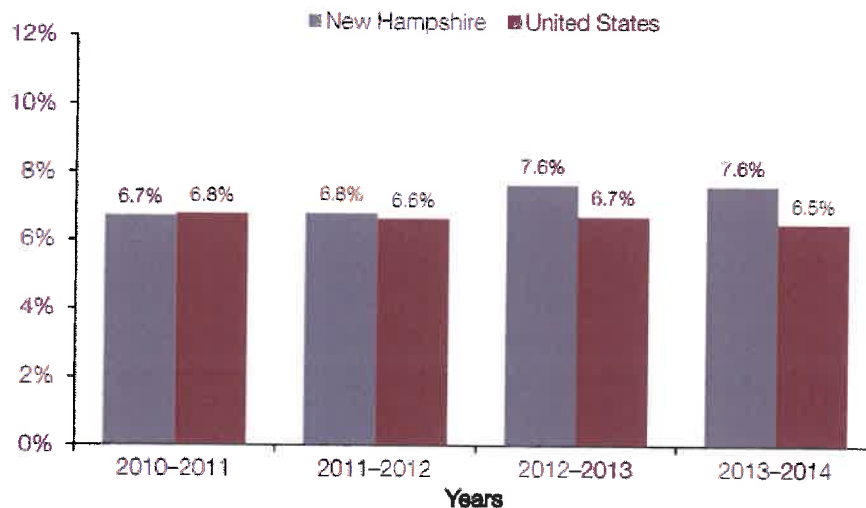

NH Adult Illicit Drug Abuse Percentage by Year

Graph Courtesy of Substance Abuse and Mental Health Services Administration,
http://www.samhsa.gov/data/sites/default/files/2015_New-Hampshire_BHBarometer.pdf

In terms of alcohol, about 87,000 individuals aged 12 or older (7.6% of all individuals in this age group) were dependent on or abused alcohol in 2013-2014 within the year prior to being surveyed.¹⁰

NH Adult Alcohol Abuse Percentage by Year

¹⁰ Substance Abuse and Mental Health Services Administration. Behavioral Health Barometer: New Hampshire, 2015. HHS Publication No. SMA-16-Baro-2015-NH. Rockville, MD: Substance Abuse and Mental Health Services Administration, 2015.

In terms of the Public Online Survey Monkey results, it is evident that substance abuse is a large concern for many residents in the NH Seacoast. Question 3 asked “In your opinion, what is the MOST prevalent health care need for Seacoast residents?” The results, as shown in the Methodology/Process section of this reports are as follows:

Question 3: In your opinion, what is the MOST prevalent health care need for Seacoast residents?		
Answer Options	Response Percent	Response Count
Access to primary care	15.8%	125
Abuse of drugs / prescription drugs / alcohol	24.8%	196
Behavioral / Mental Health	23.1%	183
Dental care	5.4%	43
Obesity	5.3%	42
Cancer services	2.8%	22
Not sure	14.9%	118
Other (please specify)	7.8%	62
	answered question	791
	skipped question	6

Of the 791 respondents, 196, or 24.8% answered that “abuse of drugs/prescription drugs/alcohol” was the MOST prevalent health care need for Seacoast residents. This number becomes even more significant when the percentages are re-calculated without the respondents who stated “not sure.” Without the 118 people, or 14.9% of the responding pool, who chose this response, the new total of those who answered the question becomes 673, and the percentage of respondents who answered “abuse of drugs/prescription drugs/alcohol” rises to 29.12%.

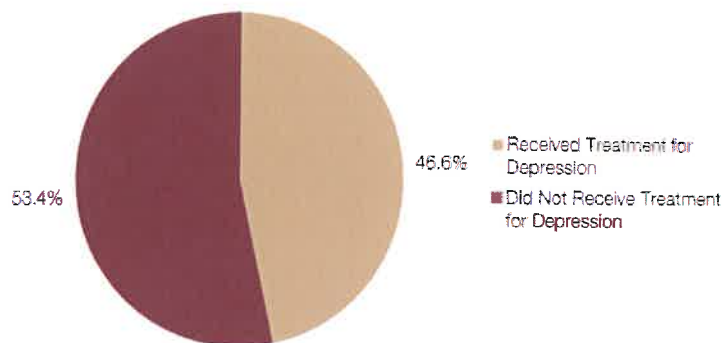

This health need is even further depicted as a health need through the Exeter Hospital Staff Survey, where 28% of respondents declared that the most prevalent health care need for Seacoast residents was “drug/prescription drug/alcohol abuse.” (Graph displayed in Methodologies/Process on page 19).

Mental Health Services:

Youth Mental Health Services:

According to the “Behavioral Health Barometer, New Hampshire 2015” report, prepared by the Substance Abuse and Mental Health Services Administration of U.S. Department of Health and Human Services, about 12,000 adolescents aged 12-17 (12.0% of all adolescents) had at least one Major Depressive Episode (MDE) in 2013-2013 within the year prior to being surveyed. Of this percentage, only 46.6%, or 5,000 adolescents received treatment for their depression within the year prior to being surveyed.¹¹

NH Youth Mental Health Treatment Percentage

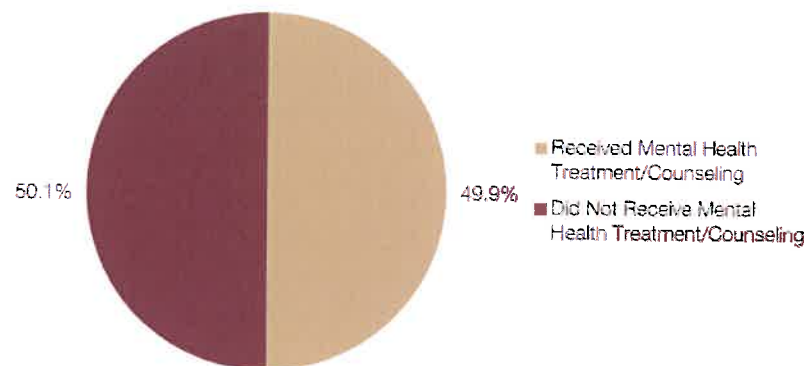

*Graph Courtesy of Substance Abuse and Mental Health Services Administration,
http://www.samhsa.gov/data/sites/default/files/2015_New-Hampshire_BHBarometer.pdf*

Adult Mental Health Services:

¹¹ Substance Abuse and Mental Health Services Administration. Behavioral Health Barometer: New Hampshire, 2015. HHS Publication No. SMA-16-Baro-2015-NH. Rockville, MD: Substance Abuse and Mental Health Services Administration, 2015.

According to the “Behavioral Health Barometer, New Hampshire 2015” report, prepared by the Substance Abuse and Mental Health Services Administration of U.S. Department of Health and Human Services, about 49,000 adults aged 18 or older (4.7% of all adults) in 2013-2014 reported having Serious Mental Illness in the year prior to being surveyed. In additions, about 43,000 adults aged 18 or older (4.1% of all adults) in 2013-2014 reported having suicidal thoughts in the year prior to being surveyed. Finally, of the total adult population with any mental illness, only 49.9% received mental health treatment/counseling from 2010-2014.¹²

NH Adult Mental Health Treatment Percentage

*Graph Courtesy of Substance Abuse and Mental Health Services Administration,
http://www.samhsa.gov/data/sites/default/files/2015_New-Hampshire_BHBarometer.pdf*

In terms of the public online “Survey Monkey” results, it is evident that mental health is a large concern for many residents in the NH Seacoast. Question 3 asked “In your opinion, what is the MOST prevalent health care need for Seacoast residents?” The results, are displayed above under *substance abuse*, and depict mental health as the second highest health care need for Seacoast residents. Of the 791 respondents, 183, or 23.1% answered that “behavioral/mental health” was the MOST prevalent health care need for Seacoast residents. This number becomes even more significant when the percentages are re-calculated without the respondents who stated “not sure.” Without the 118 people, or 14.9% of the responding pool who chose this response, the new total of

¹² Substance Abuse and Mental Health Services Administration. Behavioral Health Barometer: New Hampshire, 2015. HHS Publication No. SMA-16-Baro-2015-NH. Rockville, MD: Substance Abuse and Mental Health Services Administration, 2015.

those who answered the question becomes 673, and the percentage of respondents who answered “behavioral/mental health” rises to 27.19%.

This health need is even further depicted as a health need through the Exeter Hospital Staff Survey, where 30% of respondents declared that the most prevalent health care need for Seacoast residents was “behavioral/mental health.” This is the highest percent response for “most prevalent health care need in the Seacoast.” (Graph displayed in Methodologies/Process on page 19). In addition to the Staff Survey, there are also Key Leader Interviews that express the need for better mental health resources in the region. Ellen Tully, the Director of the Welfare Department in Portsmouth, NH, stated, “we are seeing more people with serious mental health issues, which causes them to make poor decisions regarding benefits and shelter.” Kim McNamara, Health Officer in Portsmouth NH, simply stated, “Mental health- we are so far behind.”

Behavioral Health Survey Monkey Comments:

Through the comments in the Public Online Survey Monkey, it is expressed that many believe substance abuse and addiction, to be directly associated with mental health services. Both are extremely prevalent health needs and are more and more commonly being categorized under the same umbrella of “behavioral health”. In terms of Seacoast residents, many stated through Survey Monkey just how dire these two health needs are in the current community:

These statements are made in response to the question: “In your opinion, what is the MOST prevalent health care need for Seacoast residents?”

“...More than one - Addiction and the ability to treat it, Big Problem. Mental health - most people I know- the only place that takes Medicaid -6 months wait time.”

“...I would consider 'behavioral health' as inclusive about mental health and addiction. I think mental health and addiction are equally the most prevalent needs in the seacoast”

“...Behavioral / mental health or dental might be prevalent, but abuse of drugs, etc. is probably the most urgent.”

“...There are too many people walking marooned with behavioral health issues. We need more facilities to treat.”

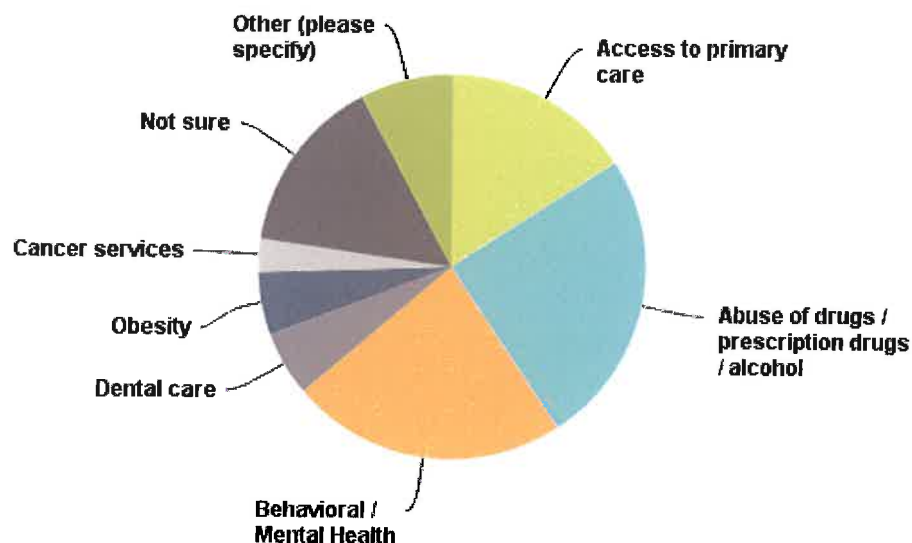

“...Access to adolescent mental health services by highly qualified medical professionals. This is a severely underserved area.”

Youth Suicide/ Substance and Prescription Drug Abuse

Correlating to the lack of mental health services, prescription drug abuse and youth suicide were among the most discussed topics in terms of health needs within Rockingham County.

Q3 In your opinion, what is the MOST prevalent health care need for Seacoast residents?

Answered: 791 Skipped: 6

According to the 2015 Youth Risk Behavior Survey Results for the Seacoast grades 9-12, out of a total N of 1,446, 14.9% or 218 students have seriously considered attempting suicide. Further over a period of 12 months, with an N of 1,382, 2.8% or 39 students actually attempted suicide 1 time, 2.2% or 30 students attempted suicide 2 to 3 times, 0.03% or 5 students attempted suicide 4 or 5 times and 0.04% or 6 students attempted suicide 6 or more times. See Appendix I for complete report.

Suicide remains the second leading cause of death in N.H. after accidental injury for individuals age 10-34. (TheConnectprogram.org)

Transportation

Similarly to the 2013 Community Health Needs Assessment, transportation remains a health need priority, especially for the elderly and disabled. Consistent with 2013, patients with chronic conditions who require ongoing appointments also find transportation as a prominent issue. Through secondary resources, as well as the Key Leader Interview process, transportation arose as a clear barrier in the community to health and wellness.

In the “Community Assessment” created by Southern New Hampshire Services (SNHS) in April 2016, transportation is a constant concern throughout the report. In a focus group led in Exeter, NH, participants were asked to identify the most important health issues currently for them. Of the list produced, the lack of adequate public transportation was stated as a specific barrier to accessing health services or securing employment. In addition SNHS conducted a partner survey in which 81 community organizations responded with services that needed improvement or were not currently provided in their area. Transportation was mentioned by 16 of the responding organizations as a priority improvement area. A similar pattern of transportation need also arises through various Key Leader Interviews.¹³

Susan Turner, director of Rockingham County Community Resource Network, stated in an interview, “COAST bus is cutting out some of their runs. You can’t just count on volunteer transportation services, because they are usually reserved for sickness, doctor’s appointments or shopping. Wentworth Senior Transportation schedule has lessened. What services do exist are mostly for seniors and disabled. People without cars who live on outskirts have trouble getting to public transport or for services. There is nothing in Raymond or Seabrook. In Hampton there is TASC – out of Hobbs House – for seniors and people with disabilities.” In addition to this comment, Maria Gagnon of Child and Family Services proposed that transportation was of utmost concern in the Seacoast Region. Finally, Daisy Wojewoda, Director of Military & Veterans Services, stated

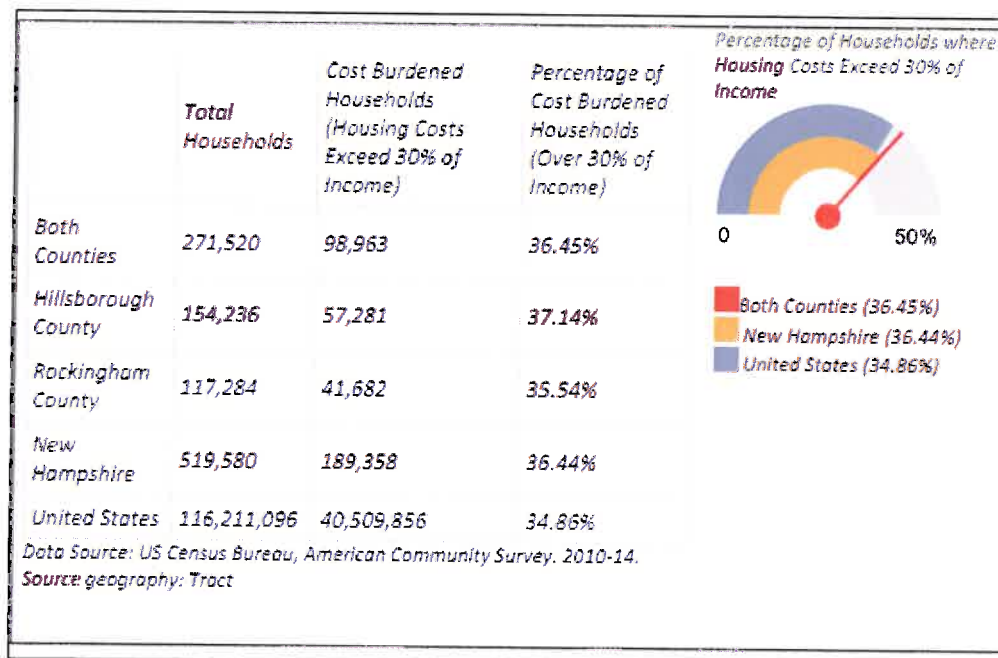

¹³ Southern New Hampshire Services, Community Assessment, SNHSCommunityAssessment_2016.PDF, April 2016.

how the distance of the VA hospital in correlation to lack of transportation services has become a significant barrier in the Seacoast region. She also states transportation as significant health need that is not being currently addressed.

Affordable Housing/ Homelessness

Affordable Housing-

Affordable housing is a significant health need throughout New Hampshire, and Rockingham County specifically. In the “Community Assessment” created by Southern New Hampshire Services (SNHS) in April 2016, housing was listed as the fifth most important need for Southern New Hampshire. In the following table, both Hillsborough and Rockingham Counties are shown. It is significant to note that 35.54% of households in Rockingham County are burdened with household costs that are over 30% of their total income. This is representative of 41,682 individuals.¹⁴

*Graph Courtesy of Southern New Hampshire Services, Community Assessment 2016.
SNHSCommunityAssessment_2016.PDF*

¹⁴ Southern New Hampshire Services, Community Assessment, SNHSCommunityAssessment_2016.PDF, April 2016.

Various Key Leader Interviews also express the need for affordable housing. Susan Turner, director of Rockingham County Community Resource Network, stated in an interview that, “We have resources that other places in the state don’t have. What we are missing, since we are an aging area, are the people to provide the services. They can’t afford to live here, may not have cars, don’t have health insurance. “Workforce housing” in this area is problematic, because it is geared toward median income, and since some Seacoast towns have so many higher-income people, the median would be unaffordable for people in low-paying jobs such as certified nursing assistant.” Another significant comment about affordable housing was given by Daisy Wojewoda, Director of Military & Veterans Services who reported few resources for shelter and affordable housing resources for Veterans. Finally, Morey Goodman, President of the Seacoast Family YMCA stated, “affordable housing is first and foremost the most pressing problem (in the Seacoast Region).”

Homelessness-

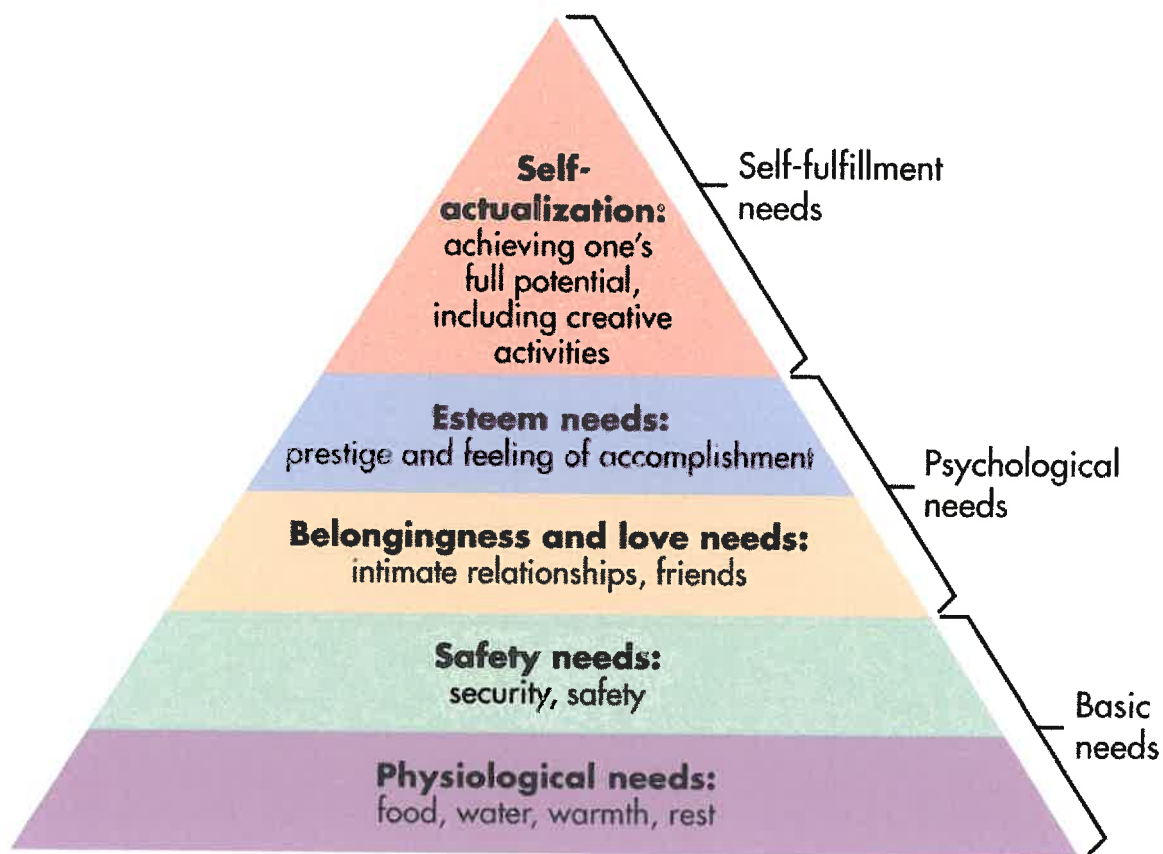

In addition to affordable housing, homelessness is becoming an increasingly more prominent issue throughout Rockingham County. In “The State of Homelessness in New Hampshire 2014”, a report conducted by the NH Coalition to End Homelessness, it is depicted how the homeless population has grown 17.48% between 2012 and 2014.¹⁵ This can be seen in the following graph:

	2012	2013	2014	% Change, 2012-2014
State	1,725	1,685	1,635	-5.22%
Belknap	58	47	45	-22.41%
Carroll	20	26	19	-5.00%
Cheshire	155	128	93	-40.00%
Coos	37	41	21	-43.24%
Grafton	89	101	89	0.00%
Hillsborough	766	789	774	1.04%
Merrimack	281	249	281	0.00%
Rockingham	143	161	168	17.48%
Strafford	63	85	74	17.46%
Sullivan	113	58	71	-37.17%

Graph Courtesy of NH Coalition to End Homelessness, <http://www.nhceh.org/wp-content/uploads/reports/2014-report.pdf>

¹⁵ NH Coalition to End Homelessness, *The State of Homelessness in New Hampshire*, 2014. <http://www.nhceh.org/wp-content/uploads/reports/2014-report.pdf>

Homelessness in the Seacoast occurs due to a combination of many factors. These include mental health disorder which is often left untreated in the homeless population due to limited access to healthcare. In addition, substance abuse disorder, trauma or violence, and poverty are main factors that are often correlated with homeless populations. Therefore, in order to significantly address homelessness as a health need, behavioral health factors are of utmost importance and need for attention. Maslow's Hierarchy of Needs illustrates the importance of meeting the physiological needs of individuals so that they may achieve a higher level of well-being.

Elder Care and Support Services

Consistent with the 2003, 2008, and 2013 Community Health Needs Assessment reports, Elder Care and Support Services remains a significant need in the area. According to the “New Hampshire State Plan on Aging- 2015-2019, published by the NH Department of Health and Human Services, New Hampshire is ranked the third state with the fastest growing older population. By 2020, the population of individuals over 65 will reach 20% of the state population. In 2010, this percentage was only 13.5%, therefore showing a dramatic increase.

Graph Courtesy of Department of Health and Human Services, Bureau of Elderly and Adult Services, *The New Hampshire State Plan on Aging, 2015-2019*. <http://www.dhhs.nh.gov/dcbcs/beas/documents/stateplan.pdf>.

In terms of Rockingham County, the percent of those aged 65 and older reached 15.8% in 2015, according to the U.S. Department of Commerce, United States Census Bureau. The State of New Hampshire, Office of Energy and Regional Planning Commissions created a manual depicting, “County Population Projections, 2013 By Age and Sex.” Through this report the above graph was created, which depicts the projected population for Rockingham County through 2025. The total

number of those aged 65 and above rises significantly every 5 years, which can be seen in the “total” column of every 5 year segment.¹⁶

With this increase in the elderly population, this also means the need for more social services to support them. These services include, but are not limited to: adult day programs, transportation, legal services, home health services, prevention and wellness programs, dental services, end of life care, etc. With the rapid increase of residents reaching the age of 65 and above, the need for all of these elder care and support services is of vital importance.

In closing, according to the 2015 America Health Rankings, published by the United Health Foundation, New Hampshire is the now the fifth healthiest state in the nation. In addition, the 2016 America Health Rankings Senior Report ranks New Hampshire third in the nation for senior health. Although the state consistently remains in the top tier overall, within Rockingham County there continues to be consistent themes identified in the 2008, 2013 and now the 2016 assessments.

With the implementation of the Insurance Exchange and the expansion of Medicaid an increased number of individuals living within Rockingham County have access to some level of insurance coverage however; the increasing high deductibles and the cost of co-payments have severely impacted access to care. Further according to Enroll America and the NH Department of Insurance as of 2015 there remained approximately 4% of the population who were uninsured a decrease of 5% since 2013.

Appendix B: Participating Organizations

Exeter Hospital:

Exeter Hospital is a 100-bed, community-based hospital serving New Hampshire's Seacoast Region. The hospital's scope of care includes comprehensive medical and surgical health care including breast health, maternal/child and reproductive medicine, cardiovascular, sleep medicine, occupational and employee health, oncology, orthopedics and emergency care. Exeter Hospital is accredited by DNV Healthcare, Inc., and is a designated Magnet® hospital by the American Nurses Credentialing.

www.ExeterHospital.com

Representative Community Partners:

Exeter Area YMCA

The Exeter Area YMCA is for Youth Development, Healthy Living and Social Responsibility. The YMCA believes in developing the whole person and the whole community through programs for all ages, financial assistance for those in need and ongoing support for healthy living success.

<http://www.sdymca.org/exeter-area-ymca>

Easter Seals NH provides exceptional services, education, outreach, and advocacy so that people living with autism and other disabilities can live, learn, work and play in our communities. Easter Seals offers help, hope and answers to more than a million children and adults living with autism spectrum disorder (ASD) and other disabilities or special needs and their families each year. Services and support are provided through a network of more than 550 sites in the U.S. and through Ability First Australia. Each center provides exceptional services that are individualized, innovative, family-focused and tailored to meet specific needs of the particular community served.

<http://www.easterseals.com/nh/>

Lamprey Health Care

Lamprey Health Care provides high quality primary medical care and health related services, with an emphasis on prevention and lifestyle management, to all individuals regardless of ability to pay. As NH's oldest community health center care is provided at three centers located in Newmarket, Raymond and Nashua. Services include primary care, prenatal care, OB/GYN, pediatrics and an integrated behavioral health program. Additional programs and services are designed to meet the needs of our target populations; the uninsured, the minority population and those with financial, language, cultural and transportation barriers to care. Serving over 10,000 patients in the Newmarket and Raymond service areas, all three centers are recognized as Level III Patient Centered Medical Homes by the National Committee for Quality Assurance, the highest level possible.

www.Lampreyhealth.org

Seacoast Public Health Network became a program of Lamprey Health Care in July 2015 two years after the state merged the work of Substance Misuse Prevention networks with Public Health Emergency Preparedness networks. Seacoast PHN provides health education promotion, substance misuse prevention, and network development. We are one of 13 public health regions in the state. The mission of Seacoast PHN is to strengthen public health partnerships in emergency preparedness, community health, and substance misuse prevention in order to better serve our communities.

www.seacoastphr.org

Families First Health and Support Center is the community health center for the Seacoast region of New Hampshire. Founded in 1984, Families First has a mission of contributing to the health and well-being of the Seacoast community by providing a broad range of health and family services to all, regardless of ability to pay. Services include general medical care for children and adults of all ages; prenatal care; behavioral health care, including substance abuse counseling and treatment; oral health care; mobile health and dental care for people experiencing homelessness; parenting classes, support groups and other family programs; free child care while parents are at Families First; individualized, in-home support for families facing particular

challenges; social work services; help managing chronic diseases; developmental screenings for children; and free breast and cervical cancer screenings for eligible women. Families First serves about 6,500 clients each year. In 2016, more than 95% of Families First Health Center patients had household incomes below 200% of the federal poverty level, 24% were homeless, and 22% were uninsured.

www.Familiesfirstseacoast.org

Richie-McFarland Children's Center Richie-McFarland Children's Center is an early childhood program whose purpose is to help young children reach their full developmental potential and to support their families through that process. The Center provides developmental and therapy services for children (ages birth through five years of age) with and without special needs, support and education to their families and guidance in accessing community and health resources.

<http://www.richiemcfarland.org/>

Seacoast Mental Health Center is the state designated Community Mental Health Center for Region VIII, encompassing 24 towns in the eastern half of Rockingham County. The Center provides the full spectrum of mental health services to persons of all ages living in this region and 24/7 emergency services to those experiencing a psychiatric emergency. Services include prevention programs for older adults and treatment programs for all ages and acuity.

www.Smhc-nh.org

United Way of the Greater Seacoast unites people to make change that lasts in the lives for families and individuals in need. United Way harnesses the power of communities working together to deliver innovative and effective solutions, focusing on the two pillars of a strong community: family financial opportunity, ensuring that every family has safe, permanent and affordable housing, can meet their basic needs and learn skills to improve their finances and educational success, ensuring that children are ready to learn and succeed in school. United Way provides funding for superior nonprofit partners with proven records of success in delivering results for thousands of people in our region. We generate the critical mass toward lasting change

by creating innovative partnerships and collaborations among individuals, companies, nonprofits and government agencies.

Appendix E: Additional Comments from the Employee Survey

Additional Comments:

Exeter Hospital Survey

<i>Inadequate communication between providers and patients and among the patient's own providers in the same network are a huge frustration.</i>
<i>A close second to the fact that there is not enough services for those with mental health issues is the opioid epidemic which I believe directly correlates. Prescription meds need to be monitored better.</i>
<i>These days, you have to take control of your own care and the elderly doesn't understand this or doesn't have anybody to help them.</i>
<i>We are desperately in need of more mental health and addiction resources.</i>
<i>FREE HEALTH CARE.</i>
<i>In the most important need I selected Mental Health/Behaviors over Substance Abuse because correcting Mental Health might help with substance abuse. Both need resources.</i>
<i>Underlying issues of the drug 'epidemic' need to be looked at... for example, better access to mental health services BEFORE people are so desperate then turn to awful things like drugs. We are just putting Band-Aids on things currently, after the fact.</i>
<i>I believe that there is a lack of access to behavioral and mental health providers, but I also feel general health care costs impact access to care.</i>
<i>There will be needs now and in the future for supportive home and institutional services for patients with Alzheimer's and dementia which are not currently in place.</i>
<i>No comments at this time.</i>
<i>The lower income people who have a disability should have free healthcare...especially those that have to take a lot of medications for mental illnesses. Seacare was a great organization for those in need of prescription drugs for their illnesses...it's a shame that this resource is no longer available.</i>
<i>I am also concerned about the coming lack of primary care providers and the high cost of care especially medications</i>
<i>Cost of obtaining care outside the EHR network is very high, limiting options for privacy if one does not want coworkers to provide their care.</i>
<i>I think drug abuse and mental health access are huge issues. Even if you are insured, it is difficult getting access to these services because there is a such a huge waiting list/imbalance of supply and demand.</i>
<i>Exeter Hospital needs to promote healthier living for their employees. Health trackers, fit-bits, weight loss goals, incentives, weight management, healthier eating, etc. 90% of my direct coworkers are obese and only getting worse. Does not reflect well out to the community.</i>
<i>n/a</i>
<i>Very poor customer service - frustrating to take time from work to deal with poorly trained front desk staff, scheduling mistakes, prescription communication mistakes, and generally poor attitude when patients are trying to address these issues and get the level of care that they (reasonably) expect from professionals.</i>
<i>Many of our elders and those with mental health lack ability to get to appointments. There is very little available for transportation in our area unless you are able to pay for it. Exeter</i>

<i>(continued from above) Hospital should lessen community contributions to build a transportation service for appointments and to deliver medications to patient's homes.</i>
<i>Mental health services are severely lacking in this community-takes several weeks to months to obtain an appointment for mental health services.</i>
<i>I think it's hard for people to get the care they need because it could be hard for them to get to the doctors especially if they don't drive, and also being able to get into seeing a provider if there is a urgent matter that they needs to be addressed right away and not wait a week to see the doctor (especially where a lot of times people won't go to the hospital if they have to pay a lot more money).</i>
<i>As our older docs retire, there is not enough Internal Med docs to take on their pts. Peds pts coming of age to transfer.</i>
<i>There are those with no insurance because they find it too costly, but would have access otherwise</i>
<i>The copays for under the hospital insurance plan (Anthem BC\BS) are too high. The increase for imaging, ER, etc. in 2016 are exorbitant!! Also, in cases where the Core Physician group does not have specific specialists, i.e. dermatology, employees and their dependents should not have to absorb the higher tier copay. My recent dermatology copay was \$50.00 for an office visit!!</i>
<i>Easy access (such as at the grocery store/laundromat), assistance w/ transportation, and a way to intervene w/ children that can assist the whole family: Nurse navigators/ case managers that assist the community holistically.</i>
<i>A solution to good healthcare for the elderly and 'less then wealthy' Americans, at an affordable cost is needed yesterday.</i>
<i>Work with insurance companies to make plans for affordable for families. Look at healthcare as actually taking care of patients, not as a money maker.</i>
<i>I'm insured through the EH but find myself using other services such as access sports or urgent care facilities because it's too difficult to be seen by any of my families providers in a reasonable, timely fashion. And, EH ER wait time is unacceptable. I live in the immediate area and hear these same concerns from others</i>
<i>My sister does not have health ins. so even though she needs to go to the dr. she will not. Her bill here at the hospital is so high she is over well with it so she will not do follow up because she cannot pay for Dr.</i>
<i>N/A</i>
<i>Mental health access for Medicaid and Medicare patients is not existent.</i>
<i>Can't afford out of pocket expense.</i>
<i>A family friend recently tried to get her daughter into a drug treatment center, she had to take her to MA in order to get her in treatment. Why, well unless you are suicidal then no one in NH takes them in. My opinion they are suicidal if they are constantly using, it could be that one more dosage that does kill them.</i>
<i>LOWER HEALTH CARE COST IS ESSENTIAL FOR THE COMMUNITY.</i>
<i>Eye and ear care are legitimate health care issues that should be insured</i>
<i>We are sorely lacking good resources for drug and alcohol abuse and treatment for inpatient psychiatric care.</i>

<i>It is extremely difficult to get in with a provider, both primary care and specialty, in a reasonable time frame. Core does not offer walk in care for illness/injury and we are losing many patients to Convenient MD purely for the convenience. I work for Core, and I end up seeing Convenient MD more frequently than my own PCP. I work and cannot take time off to get there during normal business hours. Evening hours would be appreciated.</i>
<i>Believe a glaring problem locally and nationally is adequate services for substance abuse and mental health issues.</i>
<i>Transportation is difficult in this area for the elderly to and from dialysis, outptn services</i>
<i>Lack of facilities for treatment of drug/prescription drug/alcohol abuse; Procedures/tests/treatments/medications/care not covered or only partially covered.</i>
<i>Many high risk families lack the support and resources to access good care</i>
<i>Dental assistance is sorely lacking and leads to other health care concerns</i>
<i>Mental health services are a very close second to the addiction epidemic plaguing the seacoast. Both need to be addressed as quickly as possible</i>
<i>I believe that the opioid epidemic should be addressed through community outreach and education. Opioid abuse should be Exeter Hospital's primary community focus.</i>

Appendix F: Promotions

Exeter Hospital Invites You to

PARTICIPATE IN A COMMUNITY HEALTH NEEDS ASSESSMENT FORUM

In collaboration with Easter Seals, Families First Health and Support Center, Lamprey Health Care, Richie McFarland Children's Center, Seacoast Mental Health Center, the Southern District YMCA and United Way of the Greater Seacoast, Exeter Hospital invites you to attend one of four Community Forums to provide input on what you consider to be the most important health needs in your community. Your input will be a valuable contribution to the 2016 Rockingham County Community Health Needs Assessment Report.

Wednesday, April 27 6:30 - 7:30 p.m. Exeter Hospital Conference Room 2 Exeter, NH
Wednesday, May 11 6:00 - 7:00 p.m. Raymond Baptist Church 145 Route 27 Raymond, NH
Tuesday, May 17 10:30 - 11:30 a.m. Vic Geary Senior Center 18 Greenough Road Plaistow, NH
Wednesday, May 18 6:30 - 7:30 p.m. Seabrook Library 25 Liberty Lane Seabrook, NH

Space is limited at each presentation and RSVPs are required. Please call Exeter Hospital's Information and Referral Center at 603-580-8688 or email healthreach@ehr.org to reserve your spot. Please be sure to indicate which forum you plan to attend.

Community Forums

To promote the open community forums, Exeter Hospital placed the ad pictured above in the Seacoast Media Group publications including the Portsmouth Herald, Hampton Union, Exeter Newsletter and the Foster's Daily on April 17th & April 24 and again on May 8, 2016. In addition, the ad was widely distributed via email and social media. Utilizing Facebook, the community forum opportunity reached more than 6,500 community members.

Survey Monkey

The online survey was promoted to Rockingham County community members via email, Facebook and external web postings. In addition the survey was emailed to town managers and administrators in Stratham, Seabrook, Portsmouth, Greenland, Hampton, Exeter, Rye and North Hampton. It was further distributed by the Exeter Area and Chamber of commerce and was sent to the Portsmouth Chamber. In total 797 people completed the survey. The breakdown of response methods included 590 via electronic web link, 142 via social media and 65 via Exeter's web pop-up window.

Organizations that distributed the survey included:

Appendix H: Potential Measures and Resources Available to meet Identified Needs

Access to care

In an effort to eliminate financial barriers to accessing care, Exeter Hospital provides a robust Financial Assistance Program. This is a community-based program for uninsured and underinsured patients who meet specific income, geographical, and other guidelines, and who do not otherwise qualify for any state or government assistance.

Additionally, Exeter Hospital offers a Catastrophic Care Discount. This discount provides financial relief for those patients who do not qualify for its Financial Assistance Program, but who are faced with a substantial debt due to a serious illness or injury. This discount is calculated based on a percentage of the patient's gross income.

Details can be found at www.ExeterHospital.com.

Exeter Hospital's community partners also provide access to care for the uninsured and underinsured. Lamprey Health Care, with locations in both Newmarket and Raymond, and Families First in Portsmouth – offer services to individuals and families of all ages, regardless of ability to pay, including primary care, women's health, chronic disease management, early childhood development, interpretation services, lab services, diabetes management, asthma management, care transitions coordination, medication assistance, transportation services and referrals to specialists. Lamprey and Families First accept most private insurance, Medicaid, Medicare, and offers a sliding fee scale based on income and ability to pay.

Behavioral Health Services

Exeter Hospital partners with Seacoast Mental Health Center (SMHC) to offer mental health services to patients and their caregivers in the Emergency Department and Cancer Care Center. Both Lamprey Health Care and Families First Health & Support Center have co-located a Youth and Family Therapist from SMHC to increase access to care. Seacoast Mental Health Center also works closely with Lamprey Health Care and Families First clinicians to offer psychiatric consultative services to assist clinicians and provide education to staff.

Further, Seacoast Mental Health Center is participating in a state-wide initiative which is designed to improve access to and quality of care for veterans, service members and military families. The focus is on strengthening the overall ability of each agency to understand military culture, respond to the needs of military families, and partner with provider agencies. This state-wide initiative funded by the NH Department of Health and Human Services, in partnership with NHCarePath. **Veterans Crisis Line: 1-800-273-8255, Press 1**

Youth Suicide/ Substance and Prescription Drug Abuse

Exeter Hospital has been working closely with Connor's Climb a 501c3 that works to provide Signs of Suicide training to N.H. schools and community members. www.Connorsclimb.com.

Additional resources can be found at:

<http://www.sprc.org/states/new-hampshire>

<https://www.nhms.org/suicide-prevention-and-mental-health>

Transportation

Exeter Hospital's transportation program is an important health care support service provided in response to identified community needs. Each year the program enhances access for patients who otherwise would not be able to obtain needed health care and health related support services. During FY2014 & 2015 Exeter Hospital provided 327 transports for patient care.

Lamprey Health Care's Senior Transportation Program provides transportation services to seniors 60+ and disabled residents of Rockingham County and parts of Strafford County. Transportation Services include trips to grocery stores, banks, pharmacies, medical, dental, rehabilitation appointments, and more, as well as recreational trips. Vans are handicap accessible, and provide door-to-door service for the convenience of the riders.

In addition, the Alliance for Community Transportation works to provide transportation services throughout Rockingham County.

Comprehensive transportation services can be found at www.communityrides.org and www.servicelink.nh.gov/index.htm.

Affordable Housing/ Homelessness

Exeter Hospital works closely with both Rockingham Community Action Center located in Raymond, St. Vincent de Paul in Exeter and Cross Roads House in Portsmouth to provide shelter for those in need.

Rockingham Community Access provides emergency grants to low-income households for the payment of rent, mortgage, electricity, fuel, or other basic necessities for people facing evictions, foreclosures, and/or utility terminations. Rent, mortgage, or utility assistance can be accessed through its Crisis Services Program. <http://www.rcaction.org/index.php?page=housing-assistance>

The Society of Saint Vincent de Paul Community Assistance Center serves residents of Exeter, Brentwood, East Kingston, Kensington, Stratham, and Newfields. Services available include: an extensive food pantry, dental care, medical care and financial assistance programs.

<http://www.svdpexeter.com/food-pantry.html>

Cross Roads House provides secure, transitional shelter and a proven program that helps residents move with dignity and purpose to stable and decent housing.

www.crossroadshouse.org.

Additionally, the Greater Seacoast United Way in 2009 formed the *The Greater Seacoast Coalition to End Homelessness*. Its Coordinated Access Program has proven to be successful in the supports being offered to homeless and imminently homeless individuals and families.

<http://www.uwgs.org/seacoastcoalition/>

For additional information visit <http://www.csh.org/wp-content/uploads/2015/01/Greater-Seacoast-Final-Report-Dec-2014.pdf>

Elder Care and Support Services

Exeter Hospital's affiliate Rockingham Visiting Nurse Association & Hospice (RVNA) is a community-based not-for profit home health agency that serves the adult population of Rockingham County as well as the communities of Barrington, Durham and Lee, NH. As an affiliate of the hospital, RVNA is able to provide families with the high quality home care, hospice and community outreach programs and services. While the majority of RVNA's patients are seniors, younger people dealing with serious illness, injuries or who are recovering from surgery may also take advantage of RVNA's home nursing care.

Families First provides medical and dental care to seniors and accepts Medicare while offering discounts on Medicare co-pays and dental fees; and prescription assistance. The agency also partners with other organizations to offer senior luncheons, educational workshops, an Alzheimer's Café and a caregivers group. Families First is the Seacoast's site for the Senior Companion Program of NH.

<http://www.familiesfirstseacoast.org/seniors.html>

Lamprey Health Care's Senior Transportation Program provides transportation services to seniors 60+ and disabled residents of Rockingham County and parts of Strafford County. Transportation Services include trips to grocery stores, banks, pharmacies, medical, dental, rehabilitation appointments, and more, as well as recreational trips. Vans are handicap accessible and provide door-to-door service for the convenience of the riders.

For additional information visit <http://www.lampreyhealth.org/services/senior-transportation-program>.
