The merger of the Manchester Visiting Nurse Association and Elliot Home Care, at one time known as Optima Home Health, remained to serve the needs of the community, even after the dissolution of Optima Health. I have no doubt that these two agencies, both of which have provided health care services to their respective communities for centuries, will collaborate and combine resources in this strategic initiative! KUDOS to both agencies as they have continued to provide these critical services in our homes during these challenging times! 🙌
