Security Freeze

Many state laws also allow consumers to place a security freeze on their credit reports. A security freeze prohibits a credit reporting agency from releasing any information from a consumer's credit report without written authorization. However, please be aware that placing a security freeze on your credit report may delay, interfere with, or prevent the timely approval of any requests you make for new loans, credit mortgages, employment, housing or other services.

To place a freeze, write, go online or call the three credit bureaus below. Documents will be requested to verify your identity and address, possibly including but not limited to: copies of your Social Security card, paystub, state driver's license, or utility bill.
