ENC: Important tips on how to protect personal information

Important tips on how to protect personal information

We recommend that you take the following precautions to guard against the disclosure and unauthorized use of your account and personal information:

- Review your monthly account statements thoroughly and report any suspicious activity to us.
- Report lost or stolen checks, credit or debit cards immediately.
- Never provide personal information over the phone or online unless you have initiated the call and know with whom you are speaking.
- Do not print your driver's license or Social Security number on checks.
- Safeguard ATM, credit and debit cards. Memorize PINs (personal identification numbers) and refrain from writing PINs, Social Security numbers or credit card numbers where they could be found.
- Store cancelled checks, new checks and account statements in a safe place.
- Reduce the amount of paper you receive containing personal information. Sign up for online statements, direct deposit and pay bills online.
- Tear up or shred any pre-approved credit offers to which you do not respond.
- As a general best practice, we recommended that you change (and regularly update) existing passwords and PIN numbers and monitor all your account(s) including any additional account(s) you may have with other financial institutions to prevent or detect the occurrence of any unauthorized/fraudulent activity.
- Review your credit report at least once every year. Make sure all information is up to date and accurate, and have information relating to fraudulent transactions deleted. For a free copy of your credit bureau report, contact annualcreditreport.com or call **1.877.322.8228**.
- Place a security freeze on your credit reports, free of charge, with each of the three major consumer reporting agencies. Refer to the information below regarding how to place a security freeze and what information you will need to provide to the agencies.

For more information about guarding your account and personal information, as well as our online practices, please visit our Web site www.bankofamerica.com/privacy.

Requesting and Placing a Security Freeze on Your Credit Reports

A security freeze prohibits a credit reporting agency from releasing information from your credit report without your written permission. Please be aware a security freeze may delay, interfere with, or prevent the timely approval of requests made for loans, mortgages, employment, housing, or other services. Under federal law, you cannot be charged to place, lift, or remove a security freeze. To place a security freeze on your credit reports, send a written request by mail to each consumer reporting agency at the addresses below, or place a security freeze online or over the phone, using the contact information below.

Information needed to place a security freeze. To request a security freeze, you will need to provide some or all of the following information to each credit reporting agency: full name; Social Security Number; date of birth; addresses where you lived over the past five years; proof of current address; a legible photocopy of a government issued ID card or driver's license; Social Security Card, pay stub, or W2; and if you are a victim of identity theft, a copy of the police report, investigative report, or complaint to a law enforcement agency concerning identity theft.

Confirmation of security freeze and PIN/Password. The credit reporting agencies have one to three days after receiving your request to place a security freeze on your credit report. The agencies must send you a written confirmation within five business days and provide you with a unique personal identification number (PIN) or password (or both) to use for authorizing the removal or lifting of the security freeze. Keep your PIN/password in a secure place.

How to lift a security freeze. To lift the security freeze to allow a specific entity or individual access to your credit report, you must make a request to each of the credit reporting agencies by mail, through their website, or by phone. You must provide proper identification and the PIN number or password provided to you when you placed the security freeze, as well as the identities of the entities or individuals you would like to receive your credit report. You may also temporarily lift a security freeze for a specified period of time rather than for a specific entity or individual. The credit bureaus have between one hour (for requests made online) and three business days (for request made by mail) after receiving your request to lift the security freeze.

How to remove the security freeze. To remove the security freeze, you must make a request to each of the credit reporting agencies by mail, through their website, or by phone. You must provide proper identification and the PIN number or password provided to you when you placed the security freeze. The credit bureaus have between one hour (for requests made online) and three business days (for requests made by mail) after receiving your request to remove the security freeze.

Reporting Fraud

If you think you have been a victim of identity theft or fraud, contact one of the three major credit bureaus to place a fraud alert on your account. A fraud alert will prevent new credit accounts from being opened without your permission.
