Re: Incident Notification

Dear Attorney General MacDonald:

We are writing on behalf of our client, Choctaw Global, LLC (“Choctaw”), to notify your office of a security incident involving three New Hampshire residents.

Choctaw recently concluded its investigation into an email phishing incident involving unauthorized access to several employee email accounts. Upon learning of the unauthorized access, Choctaw took steps to secure the email accounts and began an investigation with the assistance of a cybersecurity firm. Choctaw’s investigation determined that an unauthorized party accessed the accounts between July 13, 2019 and July 31, 2019. On February 3, 2020, after an extensive review of the email contents and address location effort, the investigation determined that the names and Social Security numbers of three New Hampshire residents were in the accounts.

On March 10, 2020, Choctaw mailed written notifications to the New Hampshire residents in accordance with N.H. Rev. Stat. Ann. § 359-C:20 in substantially the same form as the enclosed letter.¹ Choctaw is offering the individuals a complimentary one-year membership in credit monitoring and identity theft protection services through Experian. Choctaw also provided a telephone number for potentially affected individuals to call with any questions they may have about the incident.

¹ This report does not waive Choctaw’s objection that New Hampshire lacks personal jurisdiction over Choctaw.

To help prevent a similar incident from occurring in the future, Choctaw has implemented additional safeguards and technical security measures including multi-factor authentication on all email accounts to further protect personal information.

Please do not hesitate to contact me if you have any questions regarding this matter.

Sincerely,

Dear <<first_name>> <<middle_name>> <<last_name>> <<suffix>>,

At Choctaw Global, LLC and its affiliates and subsidiaries, we understand the importance of protecting the personal information in our possession. We are writing to inform you of a recent security incident that may have involved some of your information. This notice explains the incident, measures we have taken and some steps you can take in response.

We recently concluded an investigation into an email phishing incident and determined that an unauthorized party accessed several employee email accounts. Upon learning of the unauthorized access, we took steps to secure the email accounts and began an investigation with the assistance of a cybersecurity firm. Our investigation determined that an unauthorized party accessed the accounts between July 13 and 31, 2019. The investigation was not able to determine which emails or attachments, if any, were viewed by the unauthorized person. Out of an abundance of caution, we conducted a review of emails and attachments in the accounts and determined on February 3, 2020, that an email or attachment contained your <<b2b_text_3 (Impacted Data)>>.

Although, to date, we have no evidence that your information has been misused, we assure you that we take this incident very seriously. If you believe you are the victim of identity theft or have reason to believe your personal information has been misused, you should immediately contact the Federal Trade Commission and/or the Attorney General's office in your state. You can obtain information from these sources about steps an individual can take to avoid identity theft as well as information about fraud alerts and security freezes. You should also contact your local law enforcement authorities and file a police report. Obtain a copy of the police report in case you are asked to provide copies to creditors to correct your records. Contact information for the Federal Trade Commission is as follows:

Fraud Alerts and Credit or Security Freezes:

Fraud Alerts: There are two types of general fraud alerts you can place on your credit report to put your creditors on notice that you may be a victim of fraud—an initial alert and an extended alert. You may ask that an initial fraud alert be placed on your credit report if you suspect you have been, or are about to be, a victim of identity theft. An initial fraud alert stays on your credit report for one year. You may have an extended alert placed on your credit report if you have already been a victim of identity theft with the appropriate documentary proof. An extended fraud alert stays on your credit report for seven years.

To place a fraud alert on your credit reports, contact one of the nationwide credit bureaus. A fraud alert is free. The credit bureau you contact must tell the other two, and all three will place an alert on their versions of your report.

For those in the military who want to protect their credit while deployed, an Active Duty Military Fraud Alert lasts for one year and can be renewed for the length of your deployment. The credit bureaus will also take you off their marketing lists for pre-screened credit card offers for two years, unless you ask them not to.

Credit or Security Freezes: You have the right to put a credit freeze, also known as a security freeze, on your credit file, free of charge, which makes it more difficult for identity thieves to open new accounts in your name. That's because most creditors need to see your credit report before they approve a new account. If they can't see your report, they may not extend the credit.

How do I place a freeze on my credit reports? There is no fee to place or lift a security freeze. Unlike a fraud alert, you must separately place a security freeze on your credit file at each credit reporting company. For information and instructions to place a security freeze, contact each of the credit reporting agencies at the addresses below:

- **Experian Security Freeze**, PO Box 9554, Allen, TX 75013, www.experian.com
- **TransUnion Security Freeze**, PO Box 2000, Chester, PA 19016, www.transunion.com
- **Equifax Security Freeze**, PO Box 105788, Atlanta, GA 30348, www.equifax.com

You'll need to supply your name, address, date of birth, Social Security number and other personal information.

After receiving your freeze request, each credit bureau will provide you with a unique PIN (personal identification number) or password. Keep the PIN or password in a safe place. You will need it if you choose to lift the freeze.

How do I lift a freeze? A freeze remains in place until you ask the credit bureau to temporarily lift it or remove it altogether. If the request is made online or by phone, a credit bureau must lift a freeze within one hour. If the request is made by mail, then the bureau must lift the freeze no later than three business days after getting your request.

If you opt for a temporary lift because you are applying for credit or a job, and you can find out which credit bureau the business will contact for your file, you can save some time by lifting the freeze only at that particular credit bureau. Otherwise, you need to make the request with all three credit bureaus.
