Re: Notice of Data Event

Dear Attorney General MacDonald:

We represent Communities Connected for Kids, Inc. ("CCK") located at 1860 SW Fountainview Blvd, Suite 200, Port St. Lucie, FL 34986 and are writing to notify your office of an incident that may affect the security of some personal information relating to thirty-two (32) New Hampshire residents. This notice will be supplemented if any new significant facts are learned subsequent to its submission. By providing this notice, CCK does not waive any rights or defenses regarding the applicability of New Hampshire law, the applicability of the New Hampshire data event notification statute, or personal jurisdiction.

Nature of the Data Event

CCK provides oversight and coordination of the child-welfare system in Indian River, Martin, Okeechobee and St. Lucie counties in Florida. On March 15, 2019, CCK was advised by its third-party vendor about suspicious activity relating to databases storing CCK information. CCK immediately began investigating the nature and scope of the incident with assistance from an outside computer forensics expert. On April 10, 2019, the investigation determined that between August of 2018 and March of 2019, an unauthorized actor was able to gain access to information stored in internal databases that contain sensitive information relating to client children who receive services through CCK and their parents, as well as CCK staff members and subcontractors. The forensic investigator then reviewed all of the information that could have potentially been viewed by the unauthorized actor to determine whether any sensitive information was impacted. The forensic investigator also compiled a list of individuals whose personal information was

identified as being accessible in the internal databases. CCK then undertook a thorough and time-consuming review of its internal records to both identify its relationship to the affected individuals (for example, whether they were an employee, subcontractor, or child or parent/guardian receiving services through CCK) and attempt to locate address information for the affected individuals whose address were not present.

The types of personal information that were subject to unauthorized access vary by individual, but include name, contact information (including email address, mailing address, and phone number), Social Security number, Driver's license number, financial information, date of birth, Medicaid number, and notes relating to comprehensive behavioral health assessments (including medical diagnosis and treatment information, and family history information), and health insurance information.

Notice to New Hampshire Residents

In an effort to make affected individuals aware of the incident as quickly as possible, CCK previously published notice about the incident on its website and to news media outlets throughout Florida on May 14, 2019. CCK also notified the US Department of Health and Human Services (HHS) and the Florida Department of Children & Families (DCF), on behalf of whom it coordinates services for many of the individuals impacted by this incident.

On or about August 30, 2019, CCK will begin mailing written notice of this incident to all affected individuals which includes thirty-two (32) New Hampshire residents. Written notice is being provided in substantially the same form as the letter attached here as *Exhibit A*.

Other Steps Taken and To Be Taken

CCK takes the privacy and security of sensitive information within its care very seriously. Since learning of this issue, CCK took immediate steps to identify the issues that allowed unauthorized access to its databases to occur and is working hard to address them. CCK is providing individuals whose personal information was potentially affected by this incident with access to credit monitoring services for one year through Equifax at no cost to these individuals.

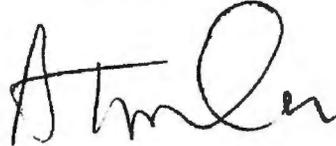

Additionally, CCK is providing impacted individuals with guidance on how to better protect against identity theft and fraud, including advising individuals to report any suspected incidents of identity theft or fraud to their credit card company and/or bank. CCK is providing individuals with information on how to place a fraud alert and security freeze on one's credit file, information on protecting against tax fraud, the contact details for the national consumer reporting agencies, information on how to obtain a free credit report, a reminder to remain vigilant for incidents of fraud and identity theft by reviewing account statements and monitoring free credit reports, and encouragement to contact the Federal Trade Commission, their state Attorney General, and law enforcement to report attempted or actual identity theft and fraud. CCK is also notifying other state regulators as required.

RE: Notice of Data Security Incident

Dear <<Name 1>>:

Communities Connected for Kids (“CCK”) is writing to inform you of an incident that may affect the security of some of your personal information. While CCK is unaware of any actual or attempted identity theft or fraud in relation to the incident, we are providing affected individuals with information about the incident and steps they may take to better protect against the possibility of identity theft or fraud should they feel it is necessary to do so.

What Happened? On March 15, 2019, CCK was advised by its third-party vendor about suspicious activity relating to databases storing CCK information. CCK immediately began investigating the nature and scope of the incident with assistance from an outside computer forensics expert. On April 10, 2019, the investigation determined that between August of 2018 and March of 2019, an unauthorized actor was able to gain access to information stored in internal databases that contain sensitive information relating to client children who receive services through CCK and their parents.

What Information Was Involved? You are receiving this letter because (1) you were identified as an individual who received services through CCK in the past as either a client child or the parent or guardian of a client child; and (2) you were affected by this incident. CCK determined that the type of information potentially impacted may vary by individual and that the following types of information may be impacted: name, contact information (including email address, mailing address, and phone number), Social Security number, driver’s license number, financial information, date of birth, Medicaid number, and notes relating to comprehensive behavioral health assessments (including medical diagnosis and treatment information, and family history information), and health insurance information.

What We Are Doing. CCK takes the privacy and security of sensitive information within its care very seriously. Since learning of this issue, CCK took immediate steps to identify the issues that allowed unauthorized access to its databases to occur and is working hard to address them. CCK has taken every necessary step to investigate this incident and the impact it may have on children, parents, and others involved in the child-welfare system in Florida that may have been affected. Due to the age and nature of much of the impacted information, a thorough and time-consuming review was necessary to determine address information for affected individuals so CCK could mail written notice of the incident.

In an effort to make affected individuals aware of the incident as quickly as possible, CCK previously published notice about the incident on its website and to news media outlets throughout Florida on May 14, 2019.

As an added precaution, we are also offering you access to 12 months of complimentary credit monitoring and identity protection services through Equifax. The cost of this service will be paid for by CCK. Instructions on how to enroll in the credit monitoring and identity protection services can be found in the enclosed *Steps You Can Take to Protect Against Identity Theft and Fraud*.

What Can You Do? You can review the enclosed *Steps You Can Take to Protect Against Identity Theft and Fraud* for additional information on how to better protect against identity theft and fraud. You can also enroll to receive the complimentary credit monitoring and identity restoration services described above.

For More Information. We understand that you may have questions about this incident that are not addressed in this letter. If you have additional questions, please call our dedicated assistance line at 1-877-565-6281, Monday through Friday from 9:00 am to 9:00 pm ET.

You may also contact the three major credit bureaus directly to request a free copy of your credit report.

You have the right to place a "security freeze" on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. The security freeze is designed to prevent credit, loans and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a security freeze on your credit report. Should you wish to place a security freeze, please contact the major consumer reporting agencies listed below:

Dear Parent or Guardian of <<Name 1>>:

Communities Connected for Kids (“CCK”) is writing to inform you of an incident that may affect the security of some of your minor dependent’s personal information. While CCK is unaware of any actual or attempted identity theft or fraud in relation to the incident, we are providing affected individuals with information about the incident and steps they may take to better protect against the possibility of identity theft or fraud should they feel it is necessary to do so.

What Happened? On March 15, 2019, CCK was advised by its third-party vendor about suspicious activity relating to databases storing CCK information. Steps You Can Take to Protect Against Identity Theft and Fraud

Product Information

Equifax Child Identity Monitoring will scan the Equifax credit database for any instances of the minor's social security number and look for a copy of the minor's Equifax credit file.

- If no SSN match is found and no Equifax credit file exists, Equifax will create an Equifax credit file in the minor's name and immediately "lock" the Equifax credit file. This will prevent access to the minor's Equifax credit file in the future. If Equifax receives a request for your minor's Equifax credit report, you will receive an email alert.
- If there is a match and an Equifax credit file exists, Equifax will immediately "lock" the file and alert you to activity against the file, such as an attempt to open a new line of credit.
- The minor's Equifax credit file will be locked for 12 months from date of activation. After that time, the minor's Equifax credit file will be deleted from our credit database if it contains no credit data.
