Re: Incident Notification

Dear Attorney General Foster:

Our client, DXE Medical, Inc. ("DXE Medical"), understands the importance of protecting the personal information provided by its customers. On July 28, 2016, DXE Medical was advised by its third-party website developer that it had identified code it did not recognize on the server that operates DXE Medical's e-commerce website. DXE Medical immediately began an investigation, removed the code, and determined that the code was designed to copy data that was entered by customers during the checkout process.

Findings from the investigation show that if a customer attempted to or did place an order on AED.com from March 24, 2016 to July 29, 2016, information associated with the order being placed, including the customer's name, address, payment card number, expiration date and card verification code, may have been obtained by an unauthorized third-party.

As part of its efforts to address this issue, DXE Medical notified the payment card networks so that the banks that issue payment cards can be made aware and initiate heightened monitoring on the affected cards. In addition, DXE Medical has provided a toll-free number that potentially affected customers can call with questions regarding the incident.

DXE Medical provided written notification via U.S. Mail on August 18, 2016, to 17 New Hampshire residents in accordance with N.H. Rev. Stat. Ann. § 359-C:20 in substantially the same form as the document enclosed herewith. Notice is being provided in the most expedient time possible and without unreasonable delay.

To help prevent this from happening in the future, DXE Medical has remediated the website and continues to work further to strengthen the security of its systems.

Please do not hesitate to contact me if you have any questions regarding this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "Craig A. Hoffman", with a long horizontal flourish extending to the right.

Craig A. Hoffman
