Information on Security Freezes

In addition to a fraud alert, you may place a security freeze on your credit file. A security freeze will block a credit bureau from releasing information from your credit report without your prior written authorization. Please be aware that it may delay, interfere with, or prevent the timely approval of any requests you make for new loans, mortgages, employment, housing or other services. There is no charge to place, temporarily lift or remove a freeze.

To place a security freeze on your credit report, you may send a written request to **each** of the major consumer reporting agencies by mail or place a security freeze online by visiting **each** consumer reporting agency online.
