Dear Sir/Madam:

As outside counsel for Fujitsu Consulting Inc. ("Fujitsu"), I write to inform you about an incident involving the personal information of 14 of your residents. Specifically, on July 28, 2008, a package containing an electronic storage device was lost in-transit from Fujitsu offices in New York City to Montreal by national overnight courier. The courier service and law enforcement officials were immediately notified.

The device lost had information from many information technology projects. Since the loss of that data, Fujitsu has been diligently combing through the data for instances of sensitive personal information requiring notice under State laws. With respect to a project performed for The Travelers Insurance Company in 2004, Fujitsu has found 3,410 instances of name and Social Security Number, 14 of which were in connection with your residents.

Fujitsu is sending notice to the individuals in question, as well as offering, at no cost to the consumer, one year's subscription in the fraud alert product Debix. Please feel free to contact me with any further questions.

Very truly yours,

Paul J. Bond
