Re: Herff Jones LLC – Notification of Incident

Dear Attorney General Formella:

In accordance with New Hampshire Revised Statutes § 359-C:20, we write on behalf of our client, Herff Jones, LLC (“Herff Jones”), to inform you of a data security incident.

On April 7, 2021, Herff Jones became aware of suspicious activity involving certain customers’ payment card information. Herff Jones promptly launched an investigation, notified law enforcement, engaged a leading cybersecurity firm to assist in assessing the scope of the incident, and took steps to mitigate the potential impact to its customers. Herff Jones is confident unauthorized access to its payment systems has been terminated.

In late May, Herff Jones determined that certain customer personal information was subject to unauthorized access. Forensic evidence shows activity related to unauthorized access to and exfiltration of payment card information occurred during the period of January 11 to April 19, 2021. However, out of an abundance of caution, Herff Jones elected to notify individuals who transacted with it during the period from August 16, 2020 (the first date of threat actor activity identified during its forensic investigation) to April 29, 2021 (the date when Herff Jones confirmed removal of the mechanism by which payment card information had been exfiltrated from its system).

The information that was subject to unauthorized access included payment card information. In addition, it may have included one or more of the following: name, address, phone number, email address, and limited information related to customer transactions. Herff Jones began mailing notification letters to the approximately 634 impacted New Hampshire residents on June 15, 2021. A copy of this notice is attached.

Herff Jones takes the security of personal information in its care seriously. As a precautionary measure, Herff Jones is offering one year of free credit monitoring and identity theft protection services to individuals potentially impacted by the incident. Herff Jones is also providing individuals with information about steps they can take to protect themselves from fraud.
