Re: Incident Notification

Dear Assistant Attorney General Delaney:

Our client, Hudson Valley Community College ("HVCC"), on August 31, 2013, learned that a password-protected, unencrypted laptop was stolen from the home of an administrator for the Next Step Verizon associate program regionally administered by Hudson Valley Community College. New York State Police was immediately notified, and Verizon and the College began a thorough investigation to determine the contents of the laptop. The investigation confirmed that the laptop included names and Social Security numbers of Verizon associates who applied and/or enrolled in the Next Step program.

HVCC has no reason to believe that any information has been accessed or misused. HVCC also has no reason to believe that the laptop was taken for the information it contained, as several personal items were stolen in the burglary. As a precaution, however, the College began notifying individuals today. The College and Verizon are offering two-years of complimentary three-bureau credit monitoring services through Identity Theft 911 and providing call center support for those affected. To help prevent something like this from happening in the future, HVCC is working to find ways to further enhance security.

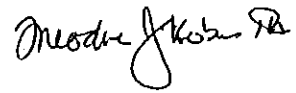

We are notifying 95 New Hampshire residents pursuant to New Hampshire statute in substantially the same form as the letter attached hereto.¹

¹ As HVCC does not conduct business in New Hampshire, this report is not, and does not constitute, a waiver of personal jurisdiction.
