Re: Data Security Incident

Dear Attorney General Foster:

We represent the International Mission Board ("IMB"), located in Richmond, Virginia, with respect to a potential data security incident described in more detail below. IMB takes the security and privacy of the information in its control very seriously, and has taken steps to prevent a similar incident from occurring in the future.

1. Nature of the security incident.

On April 11, 2018, IMB discovered unusual activity in its IT network and detected an unknown criminal actor accessing a data file within its system. This data file included information provided by individuals as part of the initial application process to serve with IMB as field personnel, volunteer, or home office staff. IMB immediately terminated the unauthorized access and implemented measures to secure its network. In addition, IMB launched a thorough investigation, with the help of leading independent data forensics experts, to determine what information may have been accessed by the criminal actor. IMB is also coordinating with a law enforcement investigation.

As a result of this investigation, it was determined that the data file contained individuals' personal information. Personal information that may have been accessible included name, address, telephone number, email address, Social Security number, date of birth, and possibly limited health information. The incident did not impact IMB's financial or email systems.

2. Number of New Hampshire residents affected.

A total number of forty-four (44) New Hampshire residents may have been potentially affected by this incident. Notification letters to these individuals were mailed on July 6, 2018, by first class mail. A sample copy of the notification letter is included with this letter.

3. Steps taken.

IMB has taken steps to prevent the likelihood of a similar event from occurring in the future, and to

For residents of Massachusetts:

It is required by state law that you are informed of your right to obtain a police report if you are a victim of identity theft.

For residents of all states:

Fraud Alerts: You can place fraud alerts with the three credit bureaus at one of the three major credit bureaus by phone and also via Experian's or Equifax's website. A fraud alert tells creditors to follow certain procedures, including contacting you, before they open any new accounts or change your existing accounts. For that reason, placing a fraud alert can protect you, but also may delay you when you seek to obtain credit. The contact information for all three credit bureaus is below:

Monitoring: You should always remain vigilant and monitor your accounts for suspicious or unusual activity.

Security Freeze: You also have the right to place a security freeze on your credit report. A security freeze is intended to prevent credit, loans and services from being approved in your name without your consent. To place a security freeze on your credit report, you need to make a request to each consumer reporting agency. You may make that request by certified mail, overnight mail, or regular stamped mail, or by following the instructions found at the websites listed below. The following information must be included when requesting a security freeze (note that if you are requesting a credit report for your spouse, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past five years; and (5) any applicable incident report or complaint with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, display your name and current mailing address, and the date of issue. The consumer reporting agency may charge a small fee to place, lift, or remove a freeze, but is free if you are a victim of identity theft or the spouse of a victim of identity theft, and you have submitted a valid police report relating to the identity theft incident to the consumer reporting agency. You may obtain a security freeze by contacting any one or more of the following national consumer reporting agencies:
