NOTICE OF DATA SECURITY BREACH

Dear Sir or Madame:

We serve as counsel for International Shoppes, LLC, located at 540 Rockaway Avenue, Valley Stream, NY 11581 and Diplomatic Duty Free Shops of New York, Inc., located at 866 Second Ave., New York, NY 10017 (together, “IShoppes”), and write to inform you of a recent cybersecurity incident. While IShoppes is unaware of any actual misuse of personal information, we are providing notice to you about this incident pursuant to applicable state law.

On Friday, December 1, 2023, International Shoppes, LLC (operator of duty free and retail stores at airports in Connecticut (BDL), Maryland (BWI), New York (JFK), Texas (IAH) and Virginia (IAD) (previously in Massachusetts (BOS)) and Diplomatic Duty Free Shoppes, Inc. (a related Diplomatic retail store in New York and duty free / tax free catalog service across the United States that serves foreign diplomats and military personnel)) became aware that their computer systems holding personal information were subject to a ransomware attack. As of this date, IShoppes has notified the FBI, the U.S. Cybersecurity and Infrastructure Security Agency (CISA), the U.S. Customs and Border Protection, and relevant airport and port authorities of this incident. This ransomware attack was discovered by the companies’ employees after these employees reported that they were unable to access certain databases. As part of the attack, IShoppes’ computer systems were temporarily encrypted and they were temporarily unable to process payments electronically. The attacker appears to have first obtained access to IShoppes’ systems on or about November 16, 2023.

Protecting the privacy and security of personal information is of critical importance to IShoppes. Though we have no basis to believe that any of this personal information was misused, IShoppes is informing New Hampshire residents of this incident because they respect their privacy. At this

IShoppes has already taken a number of steps to mitigate potential harm and remediate the incident. After conducting a full investigation of the incident with the support of cybersecurity and privacy experts, IShoppes has disabled remote access VPN connection, restricted their network's access to the internet, placed additional restrictions on user access to their network, and enhanced their network monitoring capabilities.

RE: NOTICE OF DATA SECURITY BREACH

Dear International Shoppes, LLC and Diplomatic Duty Free Shops of New York, Inc., employee, customer, vendor, or visitor:

We're writing to you as a valued employee, diplomatic customer, vendor, or visitor of International Shoppes, LLC, which operates duty free and retail stores at airports in Connecticut (BDL), Maryland (BWI), New York (JFK), Texas (IAH) and Virginia (IAD) (previously in Massachusetts (BOS)) and Diplomatic Duty Free Shops of New York, Inc., which operates a retail store in New York, as well as a duty free / tax free catalog service across the United States that serves foreign diplomats and military personnel, to inform you of a cybersecurity incident that affected our businesses and possibly your personal information. While we are unaware of any actual misuse of your information, we are providing notice to you about this incident because your privacy is of the utmost importance to us.

What Happened? On December 1, 2023, we became aware that our computer systems holding employee, customer, vendor, and visitor personal information were subject to a ransomware attack. This ransomware attack was discovered by our employees after these employees reported that they were unable to access certain databases. As part of the attack, our computer systems were temporarily encrypted. We immediately involved our internal information security team and engaged a cyber incident response firm to investigate the attack, eradicate the attacker from our systems, and identify further defenses to help protect against future attacks.

When Did It Happen? The incident was first discovered on December 1, 2023. The attacker appears to have first obtained access to our systems on or about November 16, 2023.
