Re: Notice of Data Incident

Dear <<Name 1>> <<Name 2>>:

We are writing to inform you of a data security incident that may have involved your personal information.

What Happened. On July 18, 2021, we learned that our network had been improperly accessed. Upon discovery, we immediately took steps to secure our network, activated our enhanced response protocols, and engaged third-party cybersecurity experts to investigate. As a result of the investigation, we learned on August 6, 2021, that some of your personal information may have been involved in the incident. Our investigation is ongoing, but we wanted to notify you of the situation as soon as we had sufficient information to do so.

What Information Was Involved. The information may have included your name and Social Security number.

What We Are Doing. As soon as we discovered this incident, we took the measures referenced above. We also reported the matter to the FBI and will provide whatever cooperation is necessary to hold the perpetrators accountable. We have further enhanced the security of our network to help prevent similar incidents from occurring in the future.

As you may know, there has been a significant increase in the number of data incidents in the U.S. over the past several years. Reports indicate that such incidents are up over 150% in 2021 alone, and in some cases, are followed by leaks of confidential data. We have been working with teams of professionals to prevent disclosure of confidential information. It is possible, however, that unauthorized disclosure may have occurred or will occur in the future. We therefore encourage you to enroll in the 12 months of identity monitoring services we are offering and to follow the guidance on steps you can take to protect your personal information.

Steps You Can Take to Further Protect Your Information

Review Your Account Statements and Notify Law Enforcement of Suspicious Activity: As a precautionary measure, we recommend that you remain vigilant by reviewing your account statements and credit reports closely. If you detect any suspicious activity on an account, you should promptly notify the financial institution or company with which the account is maintained. You also should promptly report any fraudulent activity or any suspected incidence of identity theft to proper law enforcement authorities, your state attorney general, and/or the Federal Trade Commission (FTC).

Copy of Credit Report: You may obtain a free copy of your credit report from each of the three major credit reporting agencies once every 12 months by visiting <http://www.annualcreditreport.com/>, calling toll-free 1-877-322-8228, or by completing an Annual Credit Report Request Form and mailing it to Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA 30348. You can print this form at www.annualcreditreport.com/cra/requestformfinal.pdf. You also can contact one of the following three national credit reporting agencies:

Equifax

P.O. Box 105851
Atlanta, GA 30348
1-800-525-6285
www.equifax.com

Experian

P.O. Box 9532
Allen, TX 75013
1-888-397-3742
www.experian.com

TransUnion

P.O. Box 1000
Chester, PA 19016
1-800-916-8800
www.transunion.com

Fraud Alert: You may want to consider placing a fraud alert on your credit report. An initial fraud alert is free and will stay on your credit file for at least one year. The alert informs creditors of possible fraudulent activity within your report and requests that the creditor contact you prior to establishing any accounts in your name. To place a fraud alert on your credit report, contact any of the three credit reporting agencies identified above. Additional information is available at <http://www.annualcreditreport.com>.

Security Freeze: You have the right to put a security freeze on your credit file for up to one year at no cost. This will prevent new credit from being opened in your name without the use of a PIN number that is issued to you when you initiate the freeze. A security freeze is designed to prevent potential creditors from accessing your credit report without your consent. As a result, using a security freeze may interfere with or delay your ability to obtain credit. You must separately place a security freeze on your credit file with each credit reporting agency. To place a security freeze, you may be required to provide the consumer reporting agency with information that identifies you including your full name, Social Security Number, date of birth, current and previous addresses, a copy of your state-issued identification card, and a recent utility bill, bank statement or insurance statement.

Additional Free Resources: You can obtain information from the consumer reporting agencies, the FTC, or from your respective state Attorney General about fraud alerts, security freezes, and steps you can take toward preventing identity theft. You may report suspected identity theft to local law enforcement, including to the FTC or to the Attorney General in your state.
