Re: Notice of Data Security Incident

Dear Attorney General MacDonald:

We represent Millennium Healthcare Group ("Millennium"), a third-party benefits administrator located in Lederach, Pennsylvania. This letter is being sent on behalf of Millennium because personal information belonging to certain New Hampshire residents may have been affected by a recent data security incident experienced thereby. The incident may have involved unauthorized access to New Hampshire residents' names and Social Security numbers.

On June 17, 2019, Millennium discovered unusual activity in its email system. Millennium immediately took measures to secure its system and launched an investigation with the assistance of a digital forensics firm to help determine what occurred and whether personal information was accessed or acquired without authorization as a result. The forensics investigation thereafter determined that one Millennium employee email account was accessed without authorization between June 14, 2019 and June 17, 2019. Upon learning this information, Millennium launched a data review project to analyze the impacted mailbox and determine whether that account contained personal information, which subsequently identified individuals whose personal information may have been impacted. Millennium then worked diligently to identify up-to-date address information required to notify potentially impacted individuals. On December 15, 2019, Millennium confirmed that the personal information of the above-referenced New Hampshire residents was contained in the impacted mailbox and therefore may have been accessed without authorization.

Millennium notified eleven (11) New Hampshire residents via the attached sample letter on December 16, 2019. Millennium is offering twelve (12) months of complimentary credit monitoring and identity protection services to the potentially affected residents through Kroll, including Credit Monitoring, $1 Million Identity Fraud Loss Reimbursement, Fraud Consultation, and Identity Theft Restoration. Please contact me should you have any questions.

Sincerely,

/s/ Alyssa R. Watzman

What Happened? On June 17, 2019, we detected unusual activity in a Millennium employee email account. We immediately took steps to secure the account and launched an investigation. Steps You Can Take to Further Protect Your Information

Review Your Account Statements and Notify Law Enforcement of Suspicious Activity

As a precautionary measure, we recommend that you remain vigilant by reviewing your account statements and credit reports closely. If you detect any suspicious activity on an account, you should promptly notify the financial institution or company with which the account is maintained. You also should promptly report any fraudulent activity or any suspected incidence of identity theft to proper law enforcement authorities, your state attorney general, and/or the Federal Trade Commission (FTC).

Copy of Credit Report: You may obtain a free copy of your credit report from each of the three major credit reporting agencies once every 12 months by visiting http://www.annualcreditreport.com/, calling toll-free 877-322-8228, or by completing an Annual Credit Report Request Form and mailing it to Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA 30348. You can print this form at https://www.annualcreditreport.com/cra/requestformfinal.pdf. You also can contact one of the following three national credit reporting agencies:

TransUnion	**Experian**	**Equifax**	**Free Annual Report**
P.O. Box 1000	P.O. Box 9532	P.O. Box 105851	P.O. Box 105281

Fraud Alert: You may want to consider placing a fraud alert on your credit report. An initial fraud alert is free and will stay on your credit file for at least 90 days. The alert informs creditors of possible fraudulent activity within your report and requests that the creditor contact you prior to establishing any accounts in your name. To place a fraud alert on your credit report, contact any of the three credit reporting agencies identified above. Additional information is available at http://www.annualcreditreport.com.

Security Freeze: You have the right to put a security freeze on your credit file. This will prevent new credit from being opened in your name without the use of a PIN number that is issued to you when you initiate the freeze. A security freeze is designed to prevent potential creditors from accessing your credit report without your consent. As a result, using a security freeze may interfere with or delay your ability to obtain credit. You must separately place a security freeze on your credit file with each credit reporting agency. There is no charge to place, lift or remove the security freeze. In order to place a security freeze, you may be required to provide the consumer reporting agency with information that identifies you including your full name, Social Security number, date of birth, current and previous addresses, a copy of your state-issued identification card, and a recent utility bill, bank statement or insurance statement.

Additional Free Resources: You can obtain information from the consumer reporting agencies, the FTC or from your respective state Attorney General about steps you can take toward preventing identity theft. You may report suspected identity theft to local law enforcement, including to the FTC or to the Attorney General in your state. Residents of Maryland, North Carolina, and Rhode Island can obtain more information from their Attorneys General using the contact information below.
