No consumer/client information was disclosed with this incident.

On March 23, 2018, NFP will begin mailing written notifications to potentially affected individuals, including three (3) New Hampshire residents who are being notified of the incident in writing in accordance with N.H. Fraud Alerts: There are two types of fraud alerts you can place on your credit report to put your creditors on notice that you may be a victim of fraud—an initial alert and an extended alert. You may ask that an initial fraud alert be placed on your credit report if you suspect you have been, or are about to be, a victim of identity theft. An initial fraud alert stays on your credit report for at least 90 days. You may have an extended alert placed on your credit report if you have already been a victim of identity theft with the appropriate documentary proof. An extended fraud alert stays on your credit report for seven years. You can place a fraud alert on your credit report by contacting any of the three national credit reporting agencies.

Credit Freezes: You may have the right to put a credit freeze, also known as a security freeze, on your credit file, so that no new credit can be opened in your name without the use of a PIN number that is issued to you when you initiate a freeze. A credit freeze is designed to prevent potential credit grantors from accessing your credit report without your consent. If you place a credit freeze, potential creditors and other third parties will not be able to get access to your credit report unless you temporarily lift the freeze. Therefore, using a credit freeze may delay your ability to obtain credit. In addition, you may incur fees to place, lift and/or remove a credit freeze. Credit freeze laws vary from state to state. The cost of placing, temporarily lifting, and removing a credit freeze also varies by state, generally \$5 to \$20 per action at each credit reporting company. Unlike a fraud alert, you must separately place a credit freeze on your credit file at each credit reporting company. Since the instructions for how to establish a credit freeze differ from state to state, please contact the three major credit reporting companies as specified below to find out more information.

To place a security freeze on your credit report, you must send a written request to each of the three major reporting agencies by regular, certified, or overnight mail at the addresses below:

Equifax Security Freeze, PO Box 105788, Atlanta, GA 30348, www.equifax.com
Experian Security Freeze, PO Box 9554, Allen, TX 75013, www.experian.com
TransUnion Security Freeze, PO Box 2000, Chester, PA 19016, www.transunion.com

In order to request a security freeze, you will need to provide the following information:

1. Your full name (including middle initial as well as Jr., Sr., II, III, etc.)
2. Social Security number
3. Date of birth
4. If you have moved in the past five (5) years, provide the addresses where you have lived over the prior five years
5. Proof of current address such as a current utility bill or telephone bill
6. A legible photocopy of a government issued identification card (state driver's license or ID card, military identification, etc.)
7. If you are a victim of identity theft, include a copy of the police report, investigative report, or complaint to a law enforcement agency concerning identity theft

The credit reporting agencies have three (3) business days after receiving your request to place a security freeze on your credit report. The credit bureaus must also send written confirmation to you within five (5) business days and provide you with a unique personal identification number ("PIN") or password or both that can be used by you to authorize the removal or lifting of the security freeze.

To lift the security freeze in order to allow a specific entity or individual access to your credit report, you must call or send a written request to the credit reporting agencies by mail and include proper identification (name, address, and Social Security number) and the PIN number or password provided to you when you placed the security freeze as well as the identity of those entities or individuals you would like to receive your credit report or the specific period of time you want the credit report available. The credit reporting agencies have three (3) business days after receiving your request to lift the security freeze for those identified entities or for the specified period of time.

To remove the security freeze, you must send a written request to each of the three credit bureaus by mail and include proper identification (name, address, and Social Security number) and the PIN number or password provided to you when you placed the security freeze. The credit bureaus have three (3) business days after receiving your request to remove the security freeze.

Fair Credit Reporting Act: You also have rights under the federal Fair Credit Reporting Act, which promotes the accuracy, fairness, and privacy of information in the files of consumer reporting agencies. The FTC has published a list of the primary rights created by the FCRA (<https://www.consumer.ftc.gov/articles/pdf-0096-fair-credit-reporting-act.pdf>), and that article refers individuals seeking more information to visit www.ftc.gov/credit. The FTC's list of FCRA rights includes:

- You have the right to receive a copy of your credit report. The copy of your report must contain all the information in your file at the time of your request.
- Each of the nationwide credit reporting companies – Equifax, Experian, and TransUnion – is required to provide you with a free copy of your credit report, at your request, once every 12 months.
- You are also entitled to a free report if a company takes adverse action against you, like denying your application for credit, insurance, or employment, and you ask for your report within 60 days of receiving notice of the action. The notice will give you the name, address, and phone number of the credit reporting company. You're also entitled to one free report a year if you're unemployed and plan to look for a job within 60 days; if you're on welfare; or if your report is inaccurate because of fraud, including identity theft.
- You have the right to ask for a credit score.
- You have the right to dispute incomplete or inaccurate information.
- Consumer reporting agencies must correct or delete inaccurate, incomplete, or unverifiable information.
- Consumer reporting agencies may not report outdated negative information.
- Access to your file is limited. And you must give your consent for reports to be provided to employers.
- You may limit "prescreened" offers of credit and insurance you get based on information in your credit report.
- You may seek damages from violators.
- Identity theft victims and active duty military personnel have additional rights.
