Re: Incident Notification

Dear Attorney General Foster:

We are writing on behalf of our client, Pentair Aquatic Eco Systems, Inc. ("Pentair"), to notify you of a security incident involving 2 New Hampshire residents.¹

On January 2, 2018, Pentair identified unauthorized computer code added to the checkout page of its online store at <https://pentairaes.com>. Pentair immediately removed the code, initiated an internal review, and engaged a leading cyber security firm to help it investigate the incident. The investigation indicates that the code may have been present and capable of capturing information entered during the checkout process from December 19, 2017 to January 2, 2018. The information on the checkout page that the code potentially accessed includes names, addresses, phone numbers, email addresses, payment card numbers, expiration dates, and card security codes (CVVs).

Beginning today, Pentair is mailing notification letters via U.S. Mail to the potentially affected individuals, including 2 New Hampshire residents, in accordance with N.H. Rev. Stat. Ann § 359-C:20 and in substantially the same form as the letter attached hereto. Pentair has established a call center that potentially affected individuals can contact with questions, and is also recommending that potentially affected individuals remain vigilant to the possibility of fraud by reviewing their account statements and credit reports for unauthorized activity.

¹ This report is not, and does not constitute, a waiver of personal jurisdiction.

In order to prevent a similar incident from happening in the future, Pentair took steps to strengthen the security of its e-commerce platform and will continue working with its vendors and security experts to enhance the security of its platform.

Please do not hesitate to contact me if you have any questions regarding this matter.

Best regards,

Baker & Hostetler LLP

Dear <<Name 1>>:

At Pentair Aquatic Eco-Systems, we value your business and understand the importance of protecting your personal information. We are writing to inform you that we recently identified and addressed a security incident that may have involved your payment card information. This notice describes the incident, outlines the measures we have taken in response, and advises you on steps you can take to further protect your information.

On January 2, 2018, we identified unauthorized computer code added to the checkout page of our online store at <https://pentairaes.com>. We immediately removed the code and hired a leading cyber security firm to help us investigate the incident. The investigation indicates that the code may have been present and capable of capturing information entered during the checkout process from December 19, 2017 to January 2, 2018. The information on the checkout page that the code potentially accessed includes name, address, phone number, email address, payment card number, expiration date, and card security code (CVV). We are notifying you because your payment card ending in <<Last Four Card #>> was entered on the checkout page during the relevant time period.

We take the security of our customers' personal information seriously. Once we learned of this incident, we took immediate action, including removing the code, initiating an internal review, engaging a leading cyber security firm to help us investigate the incident and remediate our systems, and notifying the payment card networks. To help prevent this type of incident from happening again, we took steps to strengthen the security of our online store.

We remind you to remain vigilant to the possibility of fraud by reviewing your account statements for any unauthorized activity. Immediately report any unauthorized charges to your financial institution because the payment card network rules generally restrict cardholder responsibility for fraudulent charges that are timely reported. Please review the following page for more information on ways to protect yourself.

If you have questions, please call 1-407-992-5560, Monday through Friday between the hours of 8:00 a.m. and 5:00 p.m. Eastern Time.

Sincerely,

Jeff Cirilis
