Background of the Incident

Precision Pipeline (www.precisionpipelinellc.com), headquartered in Eau Claire, Wisconsin, performs all aspects of both liquid and gas pipeline construction and has created a significant market presence across the United States because of its focus on safety, quality, environment, and production.

Additional Important Information

In the aftermath of similar incidents, some opportunistic criminals seek to fraudulently obtain personal information of affected individuals by claiming to be the business experiencing the breach. Please be extremely cautious when giving out personal information and do **not** disclose your Social Security number via e-mail (including to us). Do **not** respond to any e-mail requests from entities requesting your Social Security number, date of birth, financial account numbers, login/password information or other sensitive personal information. We will not ask you for your Social Security number, date of birth, financial account number or other sensitive personal information with regard to this incident. If you receive any written request or electronic request via e-mail purporting to be from Precision, and it looks suspicious, please notify us immediately at notification@precisionpipelinellc.com. The IRS does **not** initiate contact with taxpayers by e-mail, fax or any social media tools to request personal financial information. If you receive an e-mail or similar request that appears to be from the IRS, the IRS suggests that you do not respond to any such request.

As a precautionary measure, we recommend that you remain vigilant to protect against potential fraud and/or identity theft by, among other things, reviewing your credit card account statements and credit reports closely. If you detect any suspicious activity on an account, you should promptly notify the financial institution or company with which the account is maintained. You should also promptly report any fraudulent activity or any suspected incidents of identity theft to proper law enforcement authorities, including the police and your state's attorney general, as well as the Federal Trade Commission ("FTC").

You may wish to review the tips provided by the FTC on fraud alerts, security/credit freezes and steps you can take to avoid identity theft. For more information and to contact the FTC, please visit www.ftc.gov/idtheft or call 1-877-ID-THEFT (1-877-438-4338). You may also contact the FTC at Federal Trade Commission, 600 Pennsylvania Avenue, NW, Washington, DC 20580.

Credit Reports: You may obtain a free copy of your credit report once every 12 months from each of the three national credit reporting agencies by visiting <http://www.annualcreditreport.com>, by calling toll-free 1-877-322-8228, or by completing an Annual Credit Report Request Form and mailing it to Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA 30348. You can print a copy of the request form at <https://www.annualcreditreport.com/cra/requestformfinal.pdf>.

Alternatively, you may elect to purchase a copy of your credit report by contacting one of the three national credit reporting agencies. Contact information for the three national credit reporting agencies for the purpose of requesting a copy of your credit report or for general inquiries, including obtaining information about fraud alerts and placing a security freeze on your credit files, is as follows:

Atlanta, GA 30348

Experian

TransUnion

Fraud Alerts: You may want to consider placing a fraud alert on your credit report. An initial fraud alert is free and will stay on your credit file for at least 90 days. The alert informs creditors of possible fraudulent activity within your report and requests that creditors contact you prior to establishing any new accounts in your name. To place a fraud alert on your credit report, contact any of the three national credit reporting agencies using the contact information listed above. Additional information is available at <http://www.annualcreditreport.com>.

Credit and Security Freezes: You may have the right to put a credit freeze, also known as a security freeze, on your credit file, so that no new credit can be opened in your name without the use of a PIN number that is issued to you when you initiate a freeze. A credit freeze is designed to prevent potential credit grantors from accessing your credit report without your consent. If you place a credit freeze on your credit file, potential creditors and other third parties will not be able to get access to your credit report unless you temporarily lift the freeze. Therefore, using a credit freeze may cause a delay should you attempt to obtain credit. In addition, you may incur fees for placing, lifting and/or removing a credit freeze. Credit freeze laws vary from state to state. The cost of placing, temporarily lifting and removing a credit freeze also varies by state, generally \$5 to \$20 per action at each credit reporting company. *Unlike a fraud alert, you must separately place a credit freeze on your credit file at each credit reporting company.* Since the instructions for how to establish a credit freeze differ from state to state, please contact the three major credit reporting companies as specified below to find out more information:

Equifax Security Freeze
P.O. Box 105788
Atlanta, GA 30348

Experian Security Freeze
P.O. Box 9554
Allen, TX 75013

TransUnion Security Freeze
Fraud Victim Assistance Department
P.O. Box 6790
Fullerton, CA 92834

You can obtain more information about fraud alerts and credit freezes by contacting the FTC or one of the national credit reporting agencies listed above.
