Re: *Suspected Data Security Breach Notification – Guardian Technologies, LLC*

Dear Mr. MacDonald:

We are writing in connection with N.H. Rev. STAT. § 359-C:20 on behalf of our firm's client, RJD, LLC d/b/a Guardian Technologies, LLC ("Guardian"). It is our understanding that on April 26, 2017, Guardian learned it may have been the victim of a cyber-attack. Specifically, VividFront, LLC ("VividFront"), which designed and manages Guardian's website,¹ informed Guardian that it had discovered that an unauthorized party had compromised a portion of Guardian's website's code so certain customer information was transmitted to unknown parties while online transactions were being processed. While our investigation is still on-going, it is our present understanding that the unauthorized code may have affected customers who made purchases on Guardian Technologies' website from April 18, 2017 to April 26, 2017. The potentially compromised information includes customer names, e-mail addresses, mailing addresses, and payment information, including credit card information.

Since learning of the compromised code, Guardian has been working with VividFront to gather information, ensure the malware is removed, and strengthen the security on Guardian's website. Guardian has also retained an independent forensic expert to assist with the investigation and will continue to take all necessary steps to investigate and address this incident.

In light of the potential disclosure of customer information, a copy of the attached notice will be mailed to all potentially affected New Hampshire residents on June 9, 2017. Based on our investigation, we believe that two (2) New Hampshire residents who provided Guardian with confidential information were potentially affected.

As you will see, Guardian is offering a year of credit monitoring services to all potentially affected individuals, has opened a call center to answer any questions those individuals may have,

and has advised consumers on additional steps they may take to protect themselves from potential identity theft.

If you have any questions, please do not hesitate to contact us.

Sincerely,

TUCKER ELLIS LLP

Dear <<First Name>>:

We are writing to notify you that information you previously provided to Guardian Technologies while shopping on our website may have been acquired by a currently unknown third-party without permission. The company that manages our website informed us on April 26, 2017 that portions of the code on Guardian Technologies' website had been modified so certain customer information was transmitted to unknown parties while online transactions were being processed. While our investigation is still on-going, it is our present understanding that the unauthorized code may have affected customers who made purchases on Guardian Technologies' website from April 18, 2017 to April 26, 2017. The information potentially disclosed includes customer names, e-mail addresses, mailing addresses, and payment information, including credit card information.

Since learning of the issue with our website, Guardian Technologies has been working with our outside website manager to gather facts, prevent any further disclosures of customer information, and strengthen our website's security. We have also retained an independent information technology expert to assist with the investigation and will continue to take all necessary steps to investigate and address this incident.

If you have any questions regarding the incident, please call 1-844-749-5103.

We also want to make you aware of important steps you can take to protect yourself against identify theft and fraud.

First, securing your personal information is important to us. As a precautionary measure to safeguard your information from potential misuse, we have partnered with Equifax® to provide its Credit Watch™ Gold identity theft protection product for one year at no charge to you. A description of this product is provided in the attached material, which also contains instructions about how to enroll (including your personal activation code). If you choose to take advantage of this product, it will provide you with a notification of any changes to your credit information, up to \$25,000 Identity Theft Insurance Coverage and access to your credit report. You must complete the enrollment process by September 1, 2017. We urge you to consider enrolling in this product, at our expense, and review the Additional Resources enclosed with this letter.

Second, we recommend that you regularly review your credit and debit card account statements to determine if there has been any unauthorized activity. If you notice any unusual activity, you should contact the bank that issued the debit or credit card immediately.

In addition, you are entitled to obtain a free copy of your credit report once a year. A credit report contains important information about your credit history and the status of your credit accounts. You can obtain a copy of your credit report by contacting one of the following national consumer reporting agencies:

Equifax
P.O. Box 740241
Atlanta, GA 30374-0241

In order to further protect yourself, you may also want to consider placing either a fraud alert or security freeze on your credit file. A **FRAUD ALERT** indicates to anyone requesting your credit file that you suspect you are a victim of fraud. A fraud alert does not affect your ability to get a loan or credit. Instead, it alerts a business that your personal information might have been compromised and requires the business to verify your identity before issuing you credit. Although this may cause a short delay if you are the one applying for credit, it can help protect against someone else obtaining credit in your name. A **SECURITY FREEZE** prohibits a credit reporting agency from releasing any information from a consumer's credit report without written authorization. Please be aware, however, that placing a security freeze on your credit report may delay, interfere with or prevent the timely approval of any requests you make for new loans, credit mortgages, employment, housing or other services. You can obtain additional information about fraud alerts and security freezes, including any fees you may be required to pay in order to place a fraud alert or security freeze on your credit file, by contacting the credit reporting agencies listed above or the Federal Trade Commission, whose contact information is listed below.

If you notice any suspicious activity with your accounts or suspect you are the victim of identity theft, you have the right to and should report the incident to your local law enforcement office, your state Attorney General, and/or the Federal Trade Commission. The contact information for the Federal Trade Commission is:
