Re: N.H. Rev. Stat. Sec. 359-C: 19 Notification

Dear Attorney General MacDonald:

Pursuant to N.H. Rev. Stat. Sec. 359-C: 19, we are writing on behalf of our client Sixty Hotels, 206 Spring Street, 4th Floor, New York, NY 10012, to notify you of an incident that resulted in the unauthorized access to the hotel reservation system of Sabre Hospitality Solutions known as Sabre Hospitality Solutions SynXis Central Reservations system (CRS), used to make reservations at Sixty Hotels properties, involving 13 New Hampshire residents. These New Hampshire residents will shortly, on or about September 8, receive notice of such unauthorized access pursuant to N.H. Rev. Stat. Sec. 359-C: 19.

Sabre Hospitality Solutions determined that an unauthorized party obtained electronic access to a credit card summary page through CRS, which contained information for certain hotel reservations maintained by Sabre Hospitality Solutions on Sixty Hotels' behalf, including cardholder name; payment card number; card expiration date; and, for a subset of reservations, card security code. The unauthorized party was also able, in some cases, to access certain information such as guest name(s), email, phone number, address, and other information provided as part of a hotel reservation. We have been informed by Sabre Hospitality Solutions that information such as Social Security, passport and driver's license numbers was not accessed.

Sabre has informed Sixty Hotels that they have notified law enforcement and the payment card brands and have engaged a PCI Forensic Investigator to investigate the breach of its systems. Sabre Hospitality Solutions also reported that they took successful measures to ensure the unauthorized access to their system was stopped and is no longer possible.

Sabre reported that their investigation did not uncover forensic evidence that the unauthorized party removed any information from the system, and Sixty Hotels does not have any information that consumer personal information has been misused.

Sixty Hotels is committed to taking additional steps it can identify to prevent similar incidents from occurring in the future, including, if appropriate, additional technological safeguards and service provider oversight.

If you have any questions or need further information, please contact me at the above contact information.

Very truly yours,

P. Craig Cardon
