Re: Notice of Data Event

Dear Sir or Madam:

Mullen Coughlin, LLC represents Solara Medical Supplies, LLC (“Solara”), located at 2084 Otay Lakes Rd #102, Chula Vista, CA 91913. We write to notify your office of an incident that may affect the security of some personal information relating to twelve (12) New Hampshire residents. This notice will be supplemented with any new significant facts learned subsequent to its submission. By providing this notice, Solara does not waive any rights or defenses regarding the applicability of New Hampshire data breach notification statute, or personal jurisdiction.

Nature of the Data Event

On June 28, 2019, Solara determined that an unknown actor gained access to a limited number of employee Office 365 accounts, from April 2, 2019 to June 20, 2019, as a result of a phishing email campaign. Solara worked with third party forensic experts to investigate and respond to this incident and confirm the security of relevant Solara systems. Through this investigation on July 3, 2019, Solara determined that certain information present within the employee Office 365 accounts may have been accessed or acquired by an unknown actor at the time of the incident. Solara, therefore, undertook a comprehensive manual and programmatic review of the accounts to identify potentially affected personal information and notify those individuals potentially affected by this incident.

Once Solara confirmed that personal information was present in the accounts, Solara continued to work with the third-party forensic experts and review its records to determine the last known address for potentially affected individuals for purposes of providing notice of this incident. On September 25, 2019, Solara concluded this review and confirmed that personal information as defined by N.H. Rev. Stat. Ann. § 359-C:19 was present within the relevant accounts at the time of the incident including the name, Social Security number, and Medicare ID / Medicaid ID, of twelve (12) New Hampshire residents.

Notice to New Hampshire Residents

While the investigation was ongoing, on August 28, 2019, Solara posted notice of this incident on its website. Once Solara confirmed mailing addresses for the potentially affected individuals, Solara supplemented the August 28, 2019 notice consistent with applicable state and federal law by mailing notice letters to individuals for whom Solara had address information. This written notice included notice to the twelve (12) New Hampshire residents whose personal information was present in the accounts. Written notice was provided on November 13, 2019 in substantially the same form as the letter attached here as *Exhibit A*. Solara updated its website notice and this notice may be found at <https://www.solara.com/dataincident>. Solara also issued a press release on November 13, 2019 to major statewide media in New Hampshire in substantially the same form as the media notice attached here as *Exhibit B*.

Other Steps Taken and To Be Taken

Upon learning of this incident, Solara moved quickly to investigate and respond to this incident, assess the security of relevant Solara systems, and notify potentially affected individuals. The response included resetting relevant account passwords, reviewing the contents of the email accounts to determine whether they contained protected information, and reviewing internal systems to identify contact information for purposes of providing notice to potentially affected individuals. As part of Solara's ongoing commitment to the security of information in its care, Solara is also reviewing and enhancing existing policies and procedures to reduce the likelihood of a similar future event.

Solara is providing potentially affected individuals access to complimentary credit monitoring and identity protection services for twelve (12) months through Kroll. These services include fraud consultation and identity theft restoration services. Solara is also providing potentially affected individuals with guidance on how to better protect against identity theft and fraud, including information on how to place a fraud alert and security freeze on one's credit file, the contact details for the national consumer reporting agencies, information on how to obtain a free credit report, a reminder to remain vigilant for incidents of fraud and identity theft by reviewing account statements and explanation of benefits, monitoring free credit reports, and encouragement to contact the Federal Trade Commission, their state Attorney General, and law enforcement to report attempted or actual identity theft and fraud. Under U.S. law you are entitled to one free credit report annually from each of the three major credit reporting bureaus. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also contact the three major credit bureaus directly to request a free copy of your credit report.

You have the right to place a "security freeze" on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a security freeze on your credit report. Should you wish to place a security freeze, please contact the major consumer reporting agencies listed below:
