To Whom It May Concern:

I am writing on behalf of Speedcast International Ltd to notify you of a security incident potentially affecting New Hampshire residents.<sup>1</sup>

In July 2020, Speedcast identified a security incident affecting some of its internal corporate servers. As soon as Speedcast learned of the incident, it immediately began an investigation to determine its nature and scope with the assistance of its network security team and a leading cybersecurity firm. The event, which was limited to a portion of Speedcast's corporate network, was immediately confined from the rest of its network and was fully contained. Speedcast has fully addressed the issue and there is no active threat to its network due to this event. Further, since identifying and containing the incident, Speedcast has put additional protocols in place to further bolster network security.

During the course of Speedcast's investigation, it recently determined that certain records, including records containing the personal information of approximately two New Hampshire residents, were accessed without authorization. Speedcast's investigation determined that the following categories of personal information may have been affected: social security number, taxpayer identification number, passport number, driver's license number, bank account and routing number, investment account number, information related to workers compensation and short-term disability, health insurance policy number, and health insurance-related information. Speedcast is providing notification to New Hampshire residents and anticipates notices were delivered beginning on September 25, 2020. Speedcast is offering two years of Experian's® IdentityWorks<sup>SM</sup> services at no cost. A sample copy of the notice being sent to individuals is enclosed.

---

<sup>1</sup> This notice is being provided pursuant to N.H. Rev. Stat. § 359-C:20. By providing this notice, Speedcast does not waive any rights or defenses regarding the applicability of New Hampshire law or personal jurisdiction.

**Notice of Data Breach**

Dear Sample A Sample:

We are writing to you because we recently experienced a security incident potentially affecting some of your personal information. We are sending you this notice to provide information about the incident and the steps we are taking to address it.

**What Happened?**

In July 2020, we identified a security incident affecting some of our internal Speedcast corporate servers. We worked quickly to contain the incident, which was limited to a portion of our corporate network. We also immediately began an investigation to determine the extent and scope of the incident, working with the assistance of our network security team and a leading external cybersecurity firm.

During the course of our investigation, we determined that certain records, including records containing your personal information, were accessed without authorization.

**What Information Was Involved?**

Through our investigation, we learned that the incident has affected personal information for a portion of Speedcast employees and other related individuals – primarily those employees formerly associated with Globecomm Systems Inc., a company acquired by the Speedcast group in 2018. You (or someone who potentially listed you as a dependent or beneficiary) may have been employed or contracted by Globecomm in the past.

Our investigation determined that the following categories of your personal information may have been affected: Extra1 Item1, Item2, Item3, Item4, and Item5.

## What We Are Doing

Protecting our systems and data is core to our services and to our values as an employer, and we take the security of your personal information seriously. We fully contained and addressed the issue and there is no active threat to our network due to this event. Further, since identifying and containing the incident, we have put additional protocols in place to further bolster network security.

**It is important to note that we do not believe that there is a significant risk to you as a result of the access of information.** However, while we think that the ongoing risk is minimal, we are taking the following steps to help secure the privacy of your personal information.

We are offering affected individuals complimentary credit monitoring and identity protection services for two years via Experian's® IdentityWorks<sup>SM</sup>.
