Dear Sir or Madam:

We represent TriBike Transport, LLC (“TriBike”), a bicycle transport service company based in Asheville, North Carolina, and write to notify you of a data breach incident that involves the personal information of thirteen (13) New Hampshire residents.

What Happened:

On March 13, 2019 Tribike learned that there had been malicious code added to the TriBikeTransport.com website (the “Site”) that sought to re-direct input to unauthorized users. TriBike’s investigation to date indicates that customers who completed transactions between November 19, 2018 and March 14, 2019 may be affected.

What Information Was Involved:

Because of the nature of the breach, it is possible that some of TriBike’s customers’ personal information — which may include the individual’s name, email address, credit card number, and credit card billing address, when added to the Site — may have been compromised.

What TriBike is Doing in Response to this Incident:

Working with its database and software vendor, TriBike took immediate steps to investigate this incident, determine the Site’s then-current and potential vulnerabilities, and ensure that no future unauthorized access attempts would be successful. TriBike took the Site offline for a brief period of time to ensure all Site updates were in place to prevent future incidents. TriBike is also conducting regular security scans of the Site to detect any future unauthorized access attempts. TriBike has also implemented additional security measures to better protect the company and its customers’ information.

I have attached a copy of the notification that will be sent to the New Hampshire residents for your review. If you have any questions or concerns please feel free to contact me.

Sincerely,

Robert L. Hash, Esq.
