Subject: Notification of Data Security Breach

To whom it may concern -

In accordance with New Hampshire RSA 359: C-20, the purpose of this email is to serve as notification of a Data Security Breach.

The preliminary investigation has discovered that two University of New Hampshire user accounts were compromised on July 6, 2016.

Sensitive information for two individuals was interacted with. Our preliminary investigation attributes the breach to phishing emails.

The investigation is on-going. The affected records included Social Security Numbers and banking account information that is used for direct-deposit payroll purposes.

While we cannot determine conclusively that the files were viewed or copied, the university has provided affected individuals with appropriate notification in accordance with New Hampshire RSA 359: C-20.

Regards,

Brian Dennis Gaon
