Re: Data Security Breach Notification

To Whom It May Concern:

On behalf of William Cole Vineyards LLC, a client of Dorsey & Whitney LLP, we are writing to inform the Office of the Attorney General of the State of New Hampshire that, on June 10, 2015, William Cole Vineyards LLC notified 4 residents of New Hampshire regarding a data security incident.

Missing Link Networks, Inc. ("Missing Link") notified William Cole Vineyards LLC on May 29, 2015 of a security incident involving credit and debit card data. Missing Link has advised our client that during the window of April 1, 2015 to April 30, 2015, a third party might have gained access to certain personal information, including customer names, card numbers, related payment addresses, passwords, and dates of birth. Our client is working proactively and aggressively with Missing Link to address the issue. Missing Link has notified the credit and debit card companies and supplied them detailed information on the affected accounts, and we've been assured that these accounts are being monitored for fraud. They have also assured us that the security breach has been contained, and customers may safely use their credit and debit cards. Missing Link has upgraded its security and made system enhancements that will prevent this breach from occurring again in the future.

If you would like any additional information concerning the above event, please feel free to contact me at your convenience.

Sincerely,

Robert Cattanach

Re: Data Security Breach Notification

To Whom It May Concern:

On behalf of Cain Vineyard and Winery, a client of Dorsey & Whitney LLP, we are writing to inform the Office of the Attorney General of the State of New Hampshire that, on June 10, 2015, Cain Vineyard and Winery notified 23 residents of New Hampshire regarding a data security incident.

Missing Link Networks, Inc. ("Missing Link") notified Cain Vineyard and Winery on May 27, 2015 of a security incident involving credit and debit card data. Missing Link has advised our client that during the window of April 1, 2015 to April 30, 2015, a third party might have gained access to certain personal information, including customer names, card numbers, related payment addresses, passwords, and dates of birth. Our client is working proactively and aggressively with Missing Link to address the issue. Missing Link has notified the credit and debit card companies and supplied them detailed information on the affected accounts, and we've been assured that these accounts are being monitored for fraud. They have also assured us that the security breach has been contained, and customers may safely use their credit and debit cards. Missing Link has upgraded its security and made system enhancements that will prevent this breach from occurring again in the future.
