Kinship of Victims

Adult – Found in
Barrel #1 – Nov. 1985

Child 1 – Found in
Barrel #1 – Nov. 1985

Child 3 – Found in
Barrel #2 – May 2000

- Adult victim is maternally related to oldest and youngest child
- The 3 related females show consistent isotope values for the region where their bodies were found, suggesting they could be from New Hampshire or from a nearby state. The values suggest they were from an area closer to the Atlantic coast versus further inland.
- Results indicate that the 3 related females grew up together.

Isotope Results

Chemical Isotope Map : possible geographic origin

Chemical Isotope Map : possible geographic origin

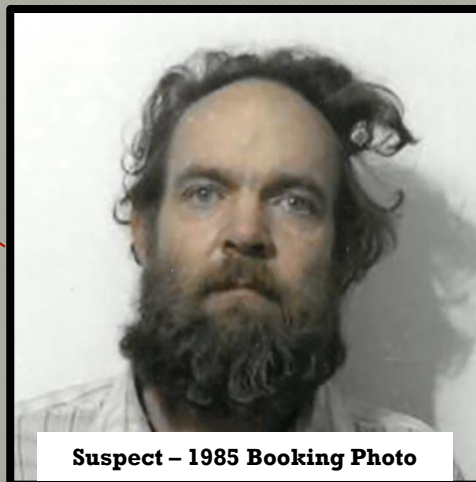

Kinship of Victims

Child 2 – Found in
Barrel #2 – May 2000

- No relationship with the other child victims

NEW INFORMATION
DNA results: Bode Cellmark
paternally matches Child 2
with Bob Evans

Suspect – 1985 Booking Photo

Father

Statement from Lisa

I am so thankful to be re-united with my Grandfather and cousins after all these years!! I want to send out a heart-felt “Thank You” to all the organizations and tireless individuals who made this possible.

As a victim in this incredulous story, I would like to ask that the media respects my privacy.

Currently I have three beautiful children and a loving husband, and would like our presently happy and secure life to remain intact and protected through the release of this story. Please turn your focus toward the un-identified victims, and other potentially unknown victims in this case, and hopefully their families will also be offered some closure as this investigation continues.

Thank you, Lisa
