Re: RSA 30-B: 12

Dear Attorney General John Formella,

On Tuesday 7-19-22, and in accordance with RSA 30-B: 12, I conducted a semi-annual inspection of the Carroll County Correctional Facility, with Superintendent Eldridge.

We toured the facility together, as I conducted an inspection of the facility for any safety and security concerns, as well of the overall conditions. I found the facility was clean, and well maintained. The inmate population seemed to be well cared for and their living conditions appeared to be a clean and safe environment.

Superintendent Eldridge has made several upgrades to the facility by adding 18 additional security cameras to assist with the safety and security of the inmate population, and assists with maintaining Prison Rape Elimination Act (PREA) compliance. The correctional facility will be conducting a PREA audit this coming September. The Jail has contracted with a new outside medical provider, to provide medical care to the inmate population.

The superintendent and his team have continued to maintain COVID-19 protocols by following CDC guidelines for correctional facilities. All staff and inmates are provided proper face coverings, and are required to wear them at all times while with in the facility.

Sincerely,

Terry McCarthy  
Carroll County Board of Commissioners
